## General Information

### Description

Invesco Markets plc (the "Company") is an open-ended variable capital company with segregated liability between sub-funds of the Company ("Funds"). The Company was incorporated on 16 October 2008. It is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella investment company, and comprises separate Funds which may be established from time to time by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank").

A Fund is defined as a separate portfolio of assets which is invested in accordance with the investment objective and policies set out in the relevant Supplement and to which all liabilities, income and expenditure attributable or allocated to such portfolio shall be applied and charged.

The particulars of each Fund are set out in a separate Supplement. Any such Supplement lists all of the existing Funds. Redeemable Shares/Shares (these terms are used interchangeably throughout the Financial Statements) of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with the Prospectus. On the introduction of any new Class of Shares, the Company prepares and the Directors will issue documentation setting out the relevant details of each such Class of Shares. Except where otherwise stated or the context requires, capitalised terms have the meaning given to them in the Prospectus of the Company dated 22 October 2021.

There are 61 Funds in existence as at 30 November 2021 (30 November 2020: 60).

## Investment Objectives and Policies

The Articles provide that the investment objective and policies for each Fund be formulated by the Directors at the time of the creation of the Fund.

The investment objective of each Fund is to seek to provide Shareholders/Redeemable Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. All Funds use financial derivative instruments and transactions and/or Over-The-Counter ("OTC") derivatives to achieve the Target Performance.

In such Funds, the return that the Shareholder will receive is dependent on the performance of the transferable securities, financial derivative instruments including OTC derivatives and the performance of any techniques used to link the transferable securities, financial derivative instruments and OTC derivatives to the Reference Index or Reference Asset. Thus the return Shareholders receive may not wholly correspond to the performance of the Reference Index or Reference Asset, depending on the structure of the relevant Fund as set out in the relevant Supplement. There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The Company on behalf of the Funds intends to invest all or substantially all of the net proceeds of any issue of Shares in global equities and equity related securities (including but not limited to common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants, forward foreign exchange contracts, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that Company) and convertible securities, as well as depository receipts, for such securities all of which are traded on markets) financial derivative instruments, US treasury bills (the Commodity Funds only), units of other UCITS and swaps.

The swaps are an agreement between the Fund and the approved counterparty to exchange one stream of cash flows against another stream pursuant to a master agreement in accordance with the requirements of the international swaps and derivatives association, and such swaps may be funded, unfunded, total return or outperformance in nature.

Each approved counterparty to the swaps and the Company on behalf of the Fund has entered into a master agreement (including any supporting agreements) and will enter into confirmations for each swap transaction. Such confirmations may be entered into before or after the relevant transaction and may be in electronic form. The Authorised Participants may be counterparties to the swaps.

All Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other shares listed on a stock exchange. Any change in the investment objective or any material change to the investment policies of a Fund may only be made with the approval of the Directors, the relevant supervisory authority and by ordinary resolution of the Redeemable Shareholders of the Fund. Subject and without prejudice to the preceding sentence of this paragraph, in the event of a change of investment objective and/or policies of a Fund, a reasonable notification period must be given to each Redeemable Shareholder of the Fund to enable a Redeemable Shareholder to have its Redeemable Shares repurchased prior to the implementation of such change.

As at 30 November 2021, the Company had 61 active Funds:

## **Investment Objectives and Policies (continued)**

### **Invesco EURO STOXX 50 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX 50 Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class B shares only.

The Reference Index is a leading blue-chip Reference Index which provides a representation of STOXX Limited super sector leaders within the Eurozone. The Reference Index is comprised of 50 stocks from the Eurozone. It captures approximately 50% of the free float market capitalisation of the DJ Euro Stoxx Total Market Index, which in turn covers approximately 95% of the free float market capitalisation of the represented countries. The Reference Index has a free float market capitalisation subject to a 10% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended Collective Investment Schemes ("CIS"). The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco MSCI Europe UCITS ETF**

The investment objective of the Fund is to achieve the the net total return performance of the MSCI Europe Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation Index that is designed to measure the equity performance of the developed markets in Europe.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe Mid 200 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Mid 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of mid-capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe Small 200 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Small 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of small capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco FTSE 100 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the FTSE 100 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a market-capitalisation weighted Index representing the performance of the 100 largest UK-domiciled blue chip companies listed on the London Stock Exchange.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

### **Invesco FTSE 250 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the FTSE 250 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a capitalisation-weighted Index of the 250 mid-capitalised companies traded on the London Stock Exchange. The Reference Index is designed to measure the performance of the mid-cap capital and industry segments of the UK market not covered by the large cap FTSE 100. To qualify, companies must have a full listing on the London Stock Exchange with a Sterling or Euro dominated price on SETS or SETSmm, or a firm quotation on SEAQ or SEATS, subject to eligibility screens. The Reference Index represents approximately 14% of the UK market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

## Investment Objectives and Policies (continued)

### **Invesco MSCI USA UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI USA Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class Distributing Shares only.

The Reference Index is a free float-adjusted, market capitalisation-weighted Index designed to measure equity market performance in the US. The Reference Index provides a representation of 10 industry sectors with 612 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Russell 2000 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the Russell 2000 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a subset of the Russell 3000®, representing approximately 10% of the market capitalisation of that index. The Reference Index is comprised of approximately the 2000 companies with the lowest market capitalisation of the Russell 3000 and therefore provides a representation of the performance of the US small cap sector.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco STOXX Europe 600 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Total Market Index (TMI) and a subset of the STOXX Global 1800 Index. With a fixed number of 600 components, the Reference Index represents large, mid and small capitalisation companies across 18 countries of the European region: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. The Reference Index has a free float market capitalisation subject to a 20% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco MSCI Japan UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Japan Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an equity Reference Index of securities listed on Japanese stock exchanges. Securities listed on the Tokyo, Osaka, Fukuoka, Nagoya, Sapporo, JASDAQ and NASDAQ JP exchanges are eligible for inclusion. The Reference Index represents Japanese companies that are available to investors worldwide and provides a representation of 10 industry sectors with 348 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI World UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI World Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation weighted Reference Index that is designed to measure the performance of the global equities market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco STOXX Europe 600 Optimised Media UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Media Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

## Investment Objectives and Policies (continued)

### **Invesco STOXX Europe 600 Optimised Media UCITS ETF (continued)**

The Reference Index is derived from the STOXX Europe 600 Supersector Media Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Personal & Household Goods UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Personal & Household Goods Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Personal & Household Goods Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Banks UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Banks Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Banks Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Chemicals UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Chemicals Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Chemicals Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average.

This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

## **Investment Objectives and Policies (continued)**

### **Invesco STOXX Europe 600 Optimised Construction & Materials UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Construction & Materials Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Construction & Materials Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Financial Services UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Financial Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Financial Services Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

## **Investment Objectives and Policies (continued)**

### **Invesco STOXX Europe 600 Optimised Health Care UCITS ETF**

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco RDX UCITS ETF**

The investment objective of the Fund is to achieve the price return performance of the Russian Depository Index or "RDX" (the "Reference Index") less fees, expenses and transaction costs. There are no dividend entitlements for the Class Acc Shares. With respect to Class Dist Shares only, and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends.

The Reference Index reflects in real-time the movement of the most actively traded shares and depository receipts of Russian companies, which are traded on the London Stock Exchange (hereinafter referred to as LSE). The purpose of the RDX is to mirror the development of prices of the most liquid blue chip stocks. RDX is a capitalization-weighted price Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI Emerging Markets UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Emerging Markets Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float-adjusted market capitalisation Index that is designed to measure equity market performance in the global emerging markets. The Reference Index provides a representation of 10 industry sectors in 22 emerging markets with 770 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco S&P 500 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 Index (the "Reference Index") (less fees, expenses and transaction costs). Dividends may be payable in respect of Class B shares only.

The Reference Index is an index of listed equities which focuses on the Large cap segment of the US market. It includes 500 US companies with a market capitalisation greater than USD 5 billion and listed on the NYSE or one of the NASDAQ exchanges. Reference Index constituents are selected by the Reference Index committee using a series of rules as guidelines.

On 8 December 2014, the Fund launched a Euro Hedged share class. The Reference Index is the S&P 500 Euro Hedged Total Return (Net) Index ("Hedged Currency Version").

On 29 June 2020, the Fund launched a GBP Hedged share class. The Reference Index is the S&P 500 GBP Hedged Total Return (Net) Index ("Hedged Currency Version").

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco EURO STOXX Optimised Banks UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX® Optimised Banks Index (Net Return) (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float market cap weighted Index. It is a subset of the EURO STOXX® Banks Index which comprises the Eurozone subset of the STOXX® Europe 600 Banks Index. The EURO STOXX® Optimised Banks Index comprises financial services companies which are selected from the STOXX® Europe 600 Index by applying certain filters including a liquidity factor and a capping of 20%, 15% or 10% depending on the number of components in the Reference Index. The free float market capitalisation, liquidity factors (to ensure relevant components have a sufficiently liquid trading market) and cap factors (ensuring no component constitutes part of the Reference Index above a pre-determined percentage level) are reviewed quarterly. The Reference Index is comprised of certain financial services components of the STOXX® Europe 600 Index which contains the stocks traded on the major exchanges of 18 European countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro.

### **Invesco Commodity Composite UCITS ETF**

The investment objective of the Fund is to seek to achieve the price return performance of the Solactive Commodity Composite Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an index of sub-indices. The Index is designed to represent the collective performance of a wide range of commodities by providing an investible benchmark consisting of selected indices from leading global index sponsors and proprietary index providers. In order to ensure counterparty diversification, the Index includes sub-indices accessed via a minimum of three counterparties. The Reference Index is re-balanced on a quarterly basis back to equal weights on the third Wednesday of the last month of every quarter (March, June, September and December). The sub-indices are weighted equally within the Reference Index and are re-balanced back to equal weightings on a quarterly basis. As of the date of this Supplement, the Reference Index tracks the performance of the following four indices: MSCY Radar Dynamic Roll (Total Return) Index, MSCY Radar F3 Roll Index TR, Citi CUBES (DJ-UBSCI Weighted) Index Total Return and DBLCl Optimum Yield Balanced Index (each a "Sub-Index" and collectively the "Sub-Indices").

The eligible Sub-Indices are defined in the index methodology as set out by Solactive AG (the "Index Provider") and are chosen on the basis of, changes in market environment, the relevant Sub-Index's compliance with the requirements for UCITS eligibility; availability of performance history; and coverage of the investible range of commodities. The Reference Index universe is updated annually.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar, and the Fund is presented in US Dollar.

### **Invesco MSCI Europe Value UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe Value Index (Bloomberg ticker: MSVEUNTR) (the "Reference Index"). The Fund does not intend to make dividend payments.

The Reference Index is a total return Index that aims to provide an alternative exposure to the traditional MSCI Europe Index. The Reference Index reweights the constituents of the MSCI Europe Index based on four fundamental accounting variables: sales, earnings, cash earnings and book value. The resultant Reference Index maintains all the constituents of the broad based parent Reference Index but effectively tilts the investment exposure toward Reference Index constituents with relatively lower valuations, hence displaying value characteristics. The Reference Index is comprised of 513 stocks from the following countries: Austria, Belgium, Switzerland, Germany, Denmark, Spain, Finland, France, Greece, Ireland, Italy, Norway, Portugal, Sweden, the Netherlands and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro.

### **Invesco Morningstar US Energy Infrastructure MLP UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Morningstar MLP Composite Index (the "Reference Index") less fees, expenses and transaction costs. There are no dividend entitlements for the Class Acc Shares. With respect to Class Dist Shares only and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends.

The Reference Index is a diversified, distribution-dollar weighted Index that targets the top 97% of publicly trading energy master limited partnerships in the United States by market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco Goldman Sachs Equity Factor Index World UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index World Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a long-only index and the components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of global equities reflective of the five investment factors detailed below. The portfolio of global equities is drawn from a universe of stocks of approximately 11,500 securities in 85 markets around the world. There is no geographical or market focus within the Reference Index. On each monthly rebalancing day the Reference Index will draw its component stocks in accordance with the rules based methodology by reference to the following five investment factors: Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco JPX-Nikkei 400 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the JPX-Nikkei 400 Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a stock Reference Index of the top 400 stocks selected from among ordinary shares listed on the Tokyo Stock Exchange's ("TSE") 1st Section, 2nd Section, Mothers and JASDAQ markets.

On 11 March 2015, the Fund launched a EUR Hedged share class and a USD Hedged share class. The Reference Index for the EUR and USD Hedged share classes is the JPX-Nikkei 400 Net TR EUR Hedged Index and JPX-Nikkei 400 Net TR USD Hedged Index ("Hedged Currency Version") respectively.

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Japanese Yen and the Fund is presented in Japanese Yen.

### **Invesco NASDAQ Biotech UCITS ETF**

The investment objective of the Fund is to achieve the total return performance of the NASDAQ Biotechnology Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to represent the performance of biotechnology and pharmaceutical securities on the NASDAQ Stock Market®.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index Europe Net Total Return EUR (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of European equities reflective of the five investment factors (Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor). The portfolio of European equities is drawn from a universe of stocks of approximately 2,500 securities in 36 European markets.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

The Fund is no longer Plan d'Épargne en Actions ("PEA") eligible effective 1 May 2021. For the purpose of eligibility requirement of Article L-221-31 of the French Monetary and Financial Code, the Fund must at all times during the financial year ended 30 November 2021 be invested in more than 75% of PEA eligible assets. PEA eligible assets are defined as equity or equity equivalent securities, which have their registered office in a country which is a member of the EU or the European Economic Area.

## Investment Objectives and Policies (continued)

### **Invesco STOXX Eurozone Exporters UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Reference Index (being the Euro STOXX International Exposure Net TR Index) less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index was a free float market cap weighted Index. It provides exposure to constituents of the Euro STOXX Index that generate a substantial proportion of their revenues outside of their "home" region i.e. from global regions outside of the Eurozone. The Euro STOXX Index provides the performance of large, mid and small capitalisation companies of 12 Eurozone countries: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal and Spain. The Euro STOXX Index is a subset of the STOXX® Europe 600 Index which contains the stocks traded on the major exchanges of 18 European countries: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

On 2 June 2015, the Fund launched a USD Hedged share class. The Reference Index for the USD Hedged share class is the Euro STOXX International Exposure Net TR USD Hedged Index ("Hedged Currency Version").

Each share class had a different equity basket and each share class tracked a different Reference Index.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco STOXX Japan Exporters UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Reference Index (being the STOXX Japan International Exposure Net TR Index) less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index was a free float market cap weighted Reference Index. It provides exposure to constituents of the STOXX Japan 600 Index that generate a substantial proportion of their revenues outside of their "home" region i.e. from global regions outside of Japan. The STOXX Japan 600 Index is derived from the STOXX Asia TMI, and covers the largest 600 companies in Japan.

On 3 June 2015, the Fund launched a EUR Hedged share class. The Reference Index for the EUR Hedged share class is the STOXX Japan International Exposure Net TR EUR Hedged Index ("Hedged Currency Version").

Each share class had a different equity basket and each share class tracked a different Reference Index.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was US Dollar and the Fund was presented in US Dollar.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco Real Estate S&P US Select Sector UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Real Estate TR Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index is the S&P Select Sector Capped 20% Real Estate TR (Net) Index represents the real estate sector of the S&P 500 Index excluding mortgage REITs. All constituent securities are classified according to the Global Industry Classification Standard (GICS®) and maintain the same classification as that found in the parent S&P 500. The Reference Index follows a modified market capitalisation weight methodology. The weight of each stock is based on its float adjusted market cap but is modified such that no stock has a weight over 19% of the Reference Index as of each quarterly rebalancing.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Bloomberg Commodity UCITS ETF**

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg Commodity Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco KBW NASDAQ FinTech UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the KBW NASDAQ Financial Technology Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index provides exposure to companies that leverage technology to deliver financial products and services. Eligible companies must distribute products and services nearly exclusively electronically, and their revenue mix must be mostly fee-based.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF**

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg ex-Agriculture and Livestock 20/30 Capped Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is based on the Bloomberg Commodity Index (the "Parent Reference Index"). The Parent Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion in the Parent Reference Index and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity. The composition of the Reference Index is derived from the Parent Reference Index; however, three of the above groups are not eligible for inclusion in the Reference Index, namely: grains, livestock and softs. The Reference Index contains 11 commodities in three groups, namely energy, industrial metals, and precious metals.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI Europe ex-UK UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe ex UK Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation Index that is designed to measure the equity performance of the developed markets in Europe excluding the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco Tradable European Earnings Momentum Factor UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Solactive Tradable European Earnings Momentum Factor Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index aimed to capture European listed equity stocks that have improving expected earnings potential.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco Tradable European Low Beta Factor UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Solactive Tradable European Low Beta Factor Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index aimed to capture European listed equity stocks that have the lowest sensitivity to market movement.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

## Investment Objectives and Policies (continued)

### **Invesco Tradable European Price Momentum Factor UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Solactive Tradable European Price Momentum Factor Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index aimed to capture European listed equity stocks that have seen the largest percentage increase in their share price.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco Tradable European Quality Factor UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Solactive Tradable European Quality Factor Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index aimed to capture European listed equity stocks that rank highly on three measures of quality.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco Tradable European Value Factor UCITS ETF**

The investment objective of the Fund was to achieve the performance of the Solactive Tradable European Value Factor Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index aimed to capture European listed equity stocks that rank highly according to three value criteria.

The Fund did not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund was Euro and the Fund was presented in Euro.

The Fund terminated on 13 December 2019. No gains and losses and cash flows were generated by the Fund for the year ended 30 November 2021. This Fund is merely included for comparative completeness purposes.

### **Invesco MSCI Saudi Arabia UCITS ETF**

The investment objective of the Fund is to achieve the performance of the MSCI Saudi Arabia 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation index that is designed to measure the large and mid-cap segments of the Saudi Arabian market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF**

The investment objective of the Fund is to achieve the performance of the Goldman Sachs Equity Factor Index Emerging Markets Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of emerging market equities reflective of the five investment factors. The portfolio of emerging market equities is drawn from a universe of stocks of approximately 850 securities in 24 markets around the world.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco Communications S&P US Select Sector UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Communications Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The S&P Select Sector Capped 20% Communications Index represents the communications sector of the S&P 500 Index. All constituent securities are classified according to the Global Industry Classification Standard (GICS®, the standard recognized by market participants worldwide for global sector and industry classifications) and maintain the same classification as that found in the parent S&P 500.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco S&P SmallCap 600 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the S&P SmallCap 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index tracks the performance of the small cap firms in the US market, consisting of US companies with unadjusted cap of USD450 million to USD 2.1 billion. The Reference Index contains the smallest 600 companies from the S&P 1500 composite index, which is the largest 1500 companies in the US market based on market capitalisation. The Reference Index is weighted by float-adjusted market capitalisation. For eligible firms, a primary listing on one of the following exchanges is required: NYSE, NASDAQ, Investors Exchange or CBOE, and at least 50% of shares outstanding must be available for trading. The Reference Index rebalances quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI Kuwait UCITS ETF**

The investment objective of the Fund is to achieve the performance of the MSCI Kuwait 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market-capitalisation index that is designed to measure the large and mid-cap segments of the Kuwaiti market. The Reference Index draws its constituents primarily from the financials, materials, communication services, real estate, and industrials sectors. The Reference Index is comprised of 9 constituents, and covers approximately 85% of the free float-adjusted market capitalisation in Kuwait. It has a total market capitalisation of €30 billion. Due to the market dominance of certain constituents in this market, it is necessary when replicating the Reference Index for the Fund to avail of the increased diversification limits permitted under the UCITS Regulations (which allow the Fund exposure to the shares and/or debt securities of one issuing body to be up to a maximum of 35%). The Reference Index is rebalanced quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco S&P 500 ESG UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 ESG Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the S&P 500 Index (the "Parent Index"). The Reference index has been constructed to provide a risk and return profile similar to that of the Parent Index, while improving ESG characteristics.

The Reference Index is constructed from the Parent Index by excluding from the Parent Index securities that: 1) are involved in business activities in tobacco, controversial weapons and thermal coal (extraction and power generation); 2) have a low United Nations Global Compact (UNGC) score, namely all companies at or below 5% of the UNGC score universe globally are excluded; 3.) has a S&P Down Jones Index ("DJI") ESG Score that falls within the worst 25% of ESG scores from each global Global Industry Classification Standard ("GICS®") industry group. The S&P DJI ESG Scores employ data gathered through RobecoSAM's Corporate Sustainability Assessment (CSA), which RobecoSAM has developed and administered over 20 years.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco NASDAQ-100 Swap UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the NASDAQ-100 Notional Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of 100 of the largest NASDAQ-listed non-financial companies based on market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

## Investment Manager's report

### Fund review

The sub-funds of the Company aim to track the total return of a reference index or a strategy by investing in liquid and listed equities and use derivatives techniques such as index swap agreement negotiated with defined Swap Counterparts (OTC swap transaction) to achieve the index or strategy performance.

These ETFs own securities that are not necessarily the ones in the index or strategy that the ETF is replicating as the index or strategy performance is obtained through the OTC swap transaction.

The specific investment objectives and policies for each Fund will be formulated by the Directors and set out in the Company's Prospectus and Fund Supplements. In particular, the reference index or strategy of each Fund is described in detail in the relevant Fund Supplement.

For individual Funds performance please refer to pages 32 to 34.

## **Investment Manager's report (continued)**

### **Performance Analysis (continued)**

Realised tracking difference are in line with what was expected. The tracking difference between the Fund and the Reference Index/strategy is mainly driven by the Management fee and the swap fee accrual. In relation to the Commodity Funds, an additional source of tracking difference and underperformance is a slight difference between the funding leg of the swap and the interest accrual the Funds realised through the Treasury Bills portfolio. The Manager aims to keep the Tracking Error of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) below or equal to 0.50% under normal market conditions.

#### **Market overview**

##### **Global equities**

Global equity markets advanced during the period from the end of November 2020 to the end of November 2021 (the reporting period). The MSCI World Index, an index comprising equities from 23 developed countries, rose by 20.1%, reflecting the ongoing economic recovery in 2021. However, economic growth weakened significantly in the first half of the year, primarily due to renewed restrictions to contain the spread of the highly transmissible Delta variant of the Coronavirus. The start of vaccination campaigns in the industrialized countries in the second and third quarters of the year ensured a strong recovery in the economy, which, however, was not without tension due to supply bottlenecks and shortages of production factors. Overall, the IMF expects a global growth of 5.9% for 2021.

Despite the global nature of the pandemic, economic recovery was very heterogeneous between countries. The uneven developments were due to significant differences in the course of the pandemic and the extent of the measures taken to combat it. Some countries were able to reach or even exceed pre-crisis levels of economic performance. These included the USA and China, for example. While the U.S. economy was supported by comparatively low restrictions and particularly extensive fiscal and monetary policy measures, in China it was the ability of companies to quickly adapt production to the products needed in times of crisis that helped the economy to regain momentum. On the contrary, the major industrialized countries of the euro zone, as well as the UK and Japan, displayed an opposite development: here, gross domestic product (GDP) remained below the levels seen before the outbreak of the pandemic.

Inflation returned in the wake of the global economic recovery. Prices for oil, gas and electricity, as well as agricultural commodities and industrial metals, increased significantly. To some extent, the rise in prices was due to base effects resulting from the lower price level of the previous year. Other factors included supply deficits, increased transportation costs and significantly higher demand for raw materials. Despite high inflation, major central banks continued to pursue very loose monetary policies to ensure the sustainability of government debt and further support the economic recovery. Key interest rates remained close to or even below zero in most regions. In addition, central banks purchased government and corporate bonds on a large scale as part of aid programs. As a result, the aggregate balance sheet of the Federal Reserve, the Bank of Japan and the European Central Bank increased by almost USD 2,700 billion during the reporting period.

##### **Emerging Markets**

The MSCI Emerging Markets Index remained virtually unchanged with a small gain of 0.6% during the reporting period. The index was weighed down by a poor performance of Chinese equities. Tighter corporate regulation by China's government, as well as concerns about financial stability, caused share prices to fall significantly. The MSCI China Index dropped by 18.1% from November 2020 to November 2021.

The worsening of the public health crisis following the more transmissible Delta variant of the virus, darkened the situation for developing countries. Registered infection and death rates rose sharply in spring and summer, particularly in India and some emerging Southeast Asian and Latin American countries, where infection rates had previously been comparatively low. As a result, economic growth was weak in the first half of the year. India was hit hardest, with a decline in economic activity of more than 10% in the second quarter of 2021; Brazil's and Argentina's economies contracted only slightly. In China, the dynamic economic developments moderated in the second half of 2021, with a low growth rate of 0.2% in the third quarter. This was mainly due to shortages of intermediate products, temporary production outages in connection with a local increase in the number of infections, and power rationing in large parts of energy-intensive production.

Interest rates have already been raised in some emerging markets - especially in Latin American countries. In Brazil, for example, policy rates were raised to 7.75% from 2% during the year. Similarly, central banks of Chile, Colombia, Peru and Argentina raised key interest rates. In addition to the rapidly rising inflation, the announcement of the beginning normalization of monetary policy in the United States, and thus concerns about a capital.

## Investment Manager's report (continued)

### Performance Analysis (continued)

#### US equities

US stocks showed a strong performance during the reporting period. The MSCI USA Index gained 25.2%, driven by strong gains in the energy and financial sector. The tech sector continued its outperformance of the recent years. Market volatility was low and approached levels seen before the pandemic.

The US economy gained momentum in the first two quarters of the year. The GDP of the United States grew by 1.5% in Q1 2021 and 1.6% in Q2 2021 on a quarter on quarter basis. Main driver was an increase in household consumption fuelled by forceful government stimulus packages. In the third quarter, economic activity weakened with a growth rate of 0.5%. The unemployment rate dropped to 5.1% at the end of the third quarter but remained still above the levels seen before the crisis. A continued government support, increasing demand and tighter labour markets caused inflation expectations to rise. Indeed, consumer prices surged 6.2% in October; its biggest increase since more than 30 years. Core inflation, without food and energy prices, reached an elevated level of 4.6%.

Despite soaring prices, the Federal Reserve continued its ultra-accommodative monetary policy by buying USD 80 billion worth of Treasury securities and USD 40 billion of mortgage-backed bonds each month, the largest asset purchase program in Fed history. In recent months, however, plans for a gradual tapering became more and more concrete. In November, the Fed announced the reduction of Treasuries purchases in a first step by \$10 billion and mortgage-backed securities purchases by \$5 billion per month.

#### European equities

The EuroStoxx50 Index increased by 16.3% in the reporting period from the end of November 2020 to the end of November 2021. In the first half of 2021, the index kept pace with US stocks mainly due to a good progress in vaccination campaigns in many European economies. Towards the end of the reporting period, however, increasing infection rates especially in the GSA (Germany, Switzerland, Austria) region, put a strain on European markets.

The economies of the euro area came through the crisis in very different ways. This was already apparent in the first half of 2020. At the height of the crisis in the second quarter, GDP losses (in each case compared with pre-crisis levels at the end of 2019) ranged from 4.5% in Lithuania to 22% in Spain. Even a year later, after a rapid but sometimes bumpy recovery, the situation remained heterogeneous. While GDP in some member countries like France or Austria had already reached or even surpassed its respective pre-crisis level during the year, in Spain it was still 6.6% lower at the end of the third quarter 2021. The shortfalls were somewhat smaller in Portugal with 3.2%, in Italy with 1.3% and in Germany with 1.1%.

As in most regions of the world, economic recovery went hand in hand with an increase in prices. Inflation in the euro area reached 4.9% by the end of November according to the latest flash estimate by Eurostat, which is the highest inflation level in the single currency era. However, the European Central Bank (ECB) remained reluctant to tighten monetary policy. Christine Lagarde, president of the ECB, said that the current price pressures were mostly transitory and would already fade by the time tightening measures took effect.

#### Russian equities

The Russian Depository Index was the best performing index in the period under consideration. From the end of November 2020 to the end of November 2021, it surged by 44%. The traditionally oil-dependent Russian economy was supported by stronger oil and gas prices. The price of Brent oil, the international benchmark, increased about 50% during the reporting period, offering strong support to Russian oil exploration and production companies. In November, Russian stocks plummeted due to rising fears of a military conflict with the Ukraine.

Economic recovery was substantial. The Russian GDP rose by 3.5% in the second quarter of 2021 driven by high consumption expenditure and a strong growth in private investment. At the same time, strong consumption contributed to an easier transmission of producer into consumer price inflation, which spiked to 8.1% in October. In an effort to tame inflation, the Bank of Russia reacted with six rates hikes from 4.25% to 7.5% during the year.

For details on significant events affecting Russian equities since the financial year end, please refer to Note 24 of the financial statements.

#### Japanese equities

The Nikkei 225 Index underperformed other developed markets. During the reporting period it gained 5.3%. The index posted a sharp decline in mid-May when the government extended the state of emergency in several areas to combat the spread of the Coronavirus. Additionally, Japanese companies were heavily impacted by the slowdown in the Chinese economy. The Japanese Yen weakened by 8.3% against the US Dollar in the reporting period.

In Japan, economic developments in the first half of 2021 were again hampered by the Corona pandemic. Rising infection figures and the resulting containment measures led to a decline in private demand and caused GDP to slump by 0.7% in the first quarter of the year. In the second quarter, the economy picked up only weakly, and GDP increased by 0.5%. Although private consumption and non-governmental investment provided some positive impulses, negative net exports and a decline in public investment prevented a stronger growth. After a one year postponement, the Olympic games were held in Tokyo.

However, the stimulus to economic activity was low because no visitors were allowed. Additionally, Corona cases surged in the aftermath of the Olympics, leading to new restrictions. Overall, GDP shrunk by almost 1% in the third quarter of 2021.

## **Investment Manager's report (continued)**

### **Performance Analysis (continued)**

#### **Japanese equities (continued)**

In contrast to other advanced economies, consumer price inflation in Japan remained at extremely low levels. Prices decreased by an average of 0.5% during the year. Negative inflation rates were mainly shaped by a reduction in mobile communications prices and a technical change in the base year used for the calculation of inflation. The Bank of Japan did not change its policy of monetary easing.

#### **Commodities**

Commodities performed strongly during the time period in question. The BCOM Index advanced by 28.8% during the reporting period. Especially energy prices rallied. Natural gas and coal prices reached record highs amid supply constraints and rebounding demand for electricity. Additionally, very low inventories and persistent supply bottlenecks exacerbated the situation. Prices for Brent crude oil increased to USD 70 per barrel from USD 46 during the reporting period, reaching a seven year high with USD 85 by mid-October. Prices were additionally lifted by production disruptions in the United States due to Hurricane Ida as well as an announcement by OPEC+ not to expand its previously announced production goals. Higher energy prices impacted prices of other commodities. Energy-intensive production of raw materials like aluminium and zinc was reduced, leading to supply shortages and putting pressure on prices. For similar reasons, prices for agricultural products soared in the first half of 2021. Only a positive crop outlook led to a decline in prices in the second half of the year. Precious metals could not profit from rising inflation expectations. Overall, prices for gold and silver remained virtually unchanged during the reporting period.

**Assenagon Asset Management S.A.**

**Date: December 2021**

## Directors' Report

The Directors present herewith the Annual Report and Audited Financial Statements for the financial year ended 30 November 2021.

### Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the audited financial statements in accordance with the Companies Act 2014 (as amended) and the applicable regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law the Directors have elected to prepare the Company's financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the company as at the financial year end date and of the profit or loss of the company for the financial year and otherwise comply with the Companies Act 2014 (as amended).

In preparing those Financial Statements, the Directors are required to:

- select suitable accounting policies for the Company Financial Statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the Financial Statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements. These Financial Statements have been prepared on a going concern basis. Please see liquidity risks outlined in note 2(d).

The Directors are responsible for keeping adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy and which enable them to ensure that the financial statements are prepared in accordance with IFRS and comply with the provisions of the Companies Act 2014 (as amended), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"), the Listing Rules of the various stock exchanges and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In this regard, Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") has been appointed for the purpose of maintaining adequate accounting records and Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") have been appointed for the purpose of safeguarding the assets of the Company.

The accounting records are maintained at the Administrator's registered offices at George's Court, 54 - 62 Townsend Street, Dublin 2, Ireland.

The Financial Statements are published on the [etf.invesco.com](http://etf.invesco.com) website. The Directors and Invesco UK Services Limited are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

### Principal activities

The investment objective of the Company for each Fund is to seek to provide Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. Each Fund may also use financial derivative instruments and transactions and/or OTC derivatives to achieve the Target Performance.

### Results for the financial year

The results of operations for the financial year are set out in the Statement of Comprehensive Income on page 565.

## Directors' Report (continued)

### Corporate governance statement

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

On 25 October 2012, the Board of Directors formally adopted the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. This publication is available from the IF website ([www.irishfunds.ie](http://www.irishfunds.ie)).

The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

As at 30 November 2021, the Company is in compliance with the IF Code.

The Company is also subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 (as amended) which is available for inspection at the registered office of the Company and may also be obtained at: [www.irishstatutebook.ie](http://www.irishstatutebook.ie);
- (ii) The Constitutional Documents of the Company which are available for inspection at the registered office of the Company at 32 Molesworth Street, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland in the Central Bank UCITS Regulations which can be obtained from the website at: [www.centralbank.ie](http://www.centralbank.ie);

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

- (iv) Deutsche Börse through the trading model of XETRA for shares (including ETFs) which can be obtained from the Deutsche Börse website at: [www.deutscheboerse.com](http://www.deutscheboerse.com);
- (v) The Irish Stock Exchange ("ISE") trading as Euronext Dublin continuing obligations requirements for open ended Funds which can be obtained from the ISE website at: [www.ise.ie](http://www.ise.ie);
- (vi) The Swiss Stock Exchange (SIX) continuing obligations requirements for investment Funds which can be obtained from the SIX website at: [www.six-swiss-exchange.com](http://www.six-swiss-exchange.com); and
- (vii) The Italian Stock Exchange (Borsa Italiana) continuing obligations requirements for ETFs which can be obtained from the Borsa Italiana website at [www.borsaitaliana.it](http://www.borsaitaliana.it).
- (viii) The Euronext Amsterdam continuing obligations requirements for ETFs which can be obtained from the Euronext Amsterdam website at [www.euronext.com](http://www.euronext.com).

By virtue of the listing on the ISE, certain Funds are admitted to trading on the London Stock Exchange ("LSE") on a "cross listing" basis. In the context, however, of corporate governance, the Funds are not subject to the listing requirements of the London Stock Exchange but instead comply with those of the ISE. In respect of Funds admitted to trading on Xetra, SIX, Borsa Italiana and Euronext Amsterdam, the Funds are listed directly with the exchanges and are required to comply with the listing requirements of the local jurisdiction. Please refer to listing details on pages 13 and 14.

### Board Diversity

The Board considers that diversity in its membership is beneficial and therefore seeks to ensure that the Board's size, structure and composition, including skills, knowledge, experience and diversity is sufficient for the effective direction and control of the Company. However, as the Board is committed to appointing the most appropriate candidates as Directors of the Company, it has not set any measurable objectives in respect of this policy.

### Internal control and risk management systems

The Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process.

The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and semi-annual Financial Statements. The Company has appointed Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") as its administrator consistent with the regulatory framework applicable to investment fund companies such as the Company.

The Administrator has functional responsibility for the preparation of the Company's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator the Board of Directors (the "Board") noted that it is regulated by the Central Bank of Ireland and, in the Board's opinion, has significant experience as an administrator.

The Board also noted the independence of the Administrator from the Company's Investment Manager and Sub Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

## Directors' Report (continued)

### Internal control and risk management systems (continued)

The annual and semi-annual Financial Statements of the Company are required to be approved by the Board and filed with the Central Bank of Ireland and the relevant Stock Exchange within the relevant respective time periods. The statutory Financial Statements are required to be audited by independent auditors who report annually to the Board on their findings.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the Financial Statements prior to their approval. The annual Financial Statements are subject to independent audit by KPMG (the "Auditor") and the Board receives and considers a report from the Auditor as to the audit process.

This report includes observations as to the extent to which (i) the annual Financial Statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide Financial Statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditor during the audit process. The Auditor presents this report at the board meeting at which the Financial Statements are presented to the Board for approval. The Board also invites the Auditor to attend the board meeting prior to the commencement of the audit, at which the Auditor presents the audit plan to the Board.

### Shareholders' meetings

The convening and conduct of Shareholders' meetings are governed by the Constitutional Documents of the Company and the Companies Act 2014 (as amended). Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a Shareholders' meeting.

Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the Auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two Shareholders present either in person or by proxy constitutes a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote and the holders of Subscriber shares shall have one vote in respect of all of the Subscriber shares in issue. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him.

The chairman of a general meeting of the Company or at least two Shareholders present in person or by proxy having the right to vote at the meeting or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. An ordinary resolution of the Company or of the Shareholders of a particular Fund or Class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Fund or Class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Constitutional Documents of the Company.

### Composition of the board of directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board is composed of four Directors.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act 2014 (as amended) or by the Constitutional Documents of the Company required to be exercised by the Company in a general meeting.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The Directors who held office during the year are:

Barry McGrath was appointed on 1 December 2011.

Barry McGrath (Irish): Mr. McGrath is an independent director and consultant to a number of Irish Funds. Prior to this, he was Head of the Investment Funds Group in Maples and Calder's Dublin office from 2008-2017. Mr. McGrath specialised in financial services law. He was previously a senior partner with a large Irish corporate law firm. Mr. McGrath is a graduate of University College Dublin.

## Directors' Report (continued)

### Composition of the board of directors (continued)

Feargal Dempsey (Irish) was appointed on 5 December 2012 as a Director and appointed as a Chairman on 21 January 2020.

Feargal Dempsey (Irish): Mr Dempsey is an independent director and consultant to the ETF industry and serves on the boards of several management company and fund boards. He has held senior positions at Barclays Global Investors/BlackRock including Head of Product Strategy iShares EMEA, Head of Product Structuring iShares EMEA and Head of Product Governance. Previously he has also served as Head of Legal to ETF Securities and as a senior lawyer in Pioneer Investments. Mr Dempsey holds a BA (Hons) and an LLB (Hons) from University College Galway and was admitted to the Roll of Solicitors in Ireland in 1996 and to the England and Wales Law Society in 2005. He has served on the legal and regulatory committee of IF and the ETF Working Group at EFAMA.

Gary Buxton (British/Irish) was appointed on 13 April 2015.

Gary Buxton (British/Irish): Head of EMEA ETFs for Invesco is responsible for Product and Sales Strategy, Product Implementation and Capital Markets in EMEA, having joined Invesco in August 2017 on its acquisition of Source. He joined Invesco as a founder of the business in 2008 as the Chief Operating Officer and was responsible for Product, Trading, Technology and Risk Management. From 2008 to 2012 and from 2015 to 2017 Mr Buxton was also the Chief Financial Officer of Source. Prior to starting Source, Mr Buxton was a director in the Hedge Fund division of Merrill Lynch where his role focused on product development. Mr Buxton started his career at Deloitte in London and is a qualified Chartered Accountant (FCA). Mr Buxton is a Director of Invesco Markets plc, Invesco Markets II plc, Invesco Markets III plc, Short-Term Investments Company (Global Series) plc, Invesco Investment Management Limited and Invesco UK Services Limited. Mr Buxton is a British and Irish national.

Anne-Marie King (Irish) resigned on 15 September 2021.

Anne-Marie King (Irish): Ms. King is the Head of Cross Border Governance for EMEA, responsible for developing a consistent and coherent governance and oversight framework for Invesco's regulated fund management company activities across EMEA, with specific responsibility for Invesco's Dublin and Luxembourg based entities. Ms. King is a Director of Invesco Management SA and Chair of Invesco Investment Management Limited. She is also a Director of a number of Invesco promoted funds. Ms. King joined Invesco (then known as Investment Fund Administrators Limited, a fully owned subsidiary of GT Asset Management Ireland Limited) in September 1994, as a member of the Client Services department. Since then Ms. King has undertaken a number of varied and progressive roles within Invesco including: Finance, Investment Administration, Business Development and Transfer Agency. Before assuming her current position in 2013, Ms. King was Head of Cross Border Transfer Agency with full responsibility for transfer agency operational, control and oversight functions and the related project and product implementation. She graduated from Dublin Business School in 1998 and is a fellow of the Chartered Association of Certified Accountants.

Katy Walton Jones (British) was appointed on 6 September 2021.

Katy Walton Jones is the Head of Legal for Invesco's EMEA ETP business and a director of Invesco UK Services Limited, Invesco Markets PLC, Invesco Markets II PLC and Invesco Markets III PLC. Before joining Invesco Katy was General Counsel and Head of Compliance for Source ETFs which was bought by Invesco in August 2017. Prior to her role at Source, Katy was General Counsel and a director of Citco Financial Products (London) Limited. She played a key role in setting up Citco's rated lending platform and was responsible for advising on all legal, regulatory and compliance issues relating to Citco's hedge fund financing, structured products and derivative transactions. Katy has a broad range of experience in both corporate, finance and commercial contracts having previously been a corporate associate specialising in private equity and public and private M&A transactions at Weil Gotshall & Manges and Freshfields Bruckhaus Deringer. Katy has a history degree from Cambridge University and is qualified as a solicitor in England and Wales.

### Directors' and company secretary's interests and transactions

Apart from those noted below, there are no contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 (as amended) at any time during the financial year. No Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and except as disclosed below no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company.

The Directors and Company Secretary had no beneficial interest in the Redeemable Shares of the Company at 30 November 2021 or at any time during the financial year (30 November 2020: Nil).

Barry McGrath is a Director of the Company, the Manager and Invesco Holdings Limited. Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of Invesco UK Services Limited. Feargal Dempsey is also a Director of the Manager. Anne-Marie King was a Director of the Company and the Manager and a Director of Cross Border Fund Governance at Invesco Investment Management Limited, as well as one of the Conducting Officers of Invesco Management SA. Katy Walton Jones is a Director of the Manager.

Details of all related party transactions are contained in Note 13 to the Company Financial Statements.

## Directors' Report (continued)

### Distributions

Distributions declared for the financial year are as set out in note 7.

### Review of business and future developments

A review of market activities can be found in the Investment Manager's Report on pages 30 to 37.

The Funds will continue to pursue their investment objectives as set out in the Prospectus and Supplements

### Principal Risks and Uncertainties

The main risks arising from the Company's financial instruments are as described in note 2 to the Financial Statements.

### Transactions with connected persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

### Directors' compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in section 225 of the Companies Act 2014 (as amended).

The Directors confirm that:

- 1) A compliance policy statement has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
- 2) appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations; and
- 3) during the financial year, the arrangements or structures referred to in (2) have been reviewed.

### Independent Auditors

KPMG, Chartered Accountants, were appointed statutory auditor on 3 June 2020 and have been re-appointed annually since that date and pursuant to section 383(2) will continue in office.

### Statement of relevant audit information

The following applies in the case of each person who was a Director of the Company, as disclosed on page 8, at the time this report is approved:

- (a) so far as the Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) the Director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

### Significant events during the financial year

For details on significant events during the year, please refer to Note 23 of the financial statements.

## Directors' Report (continued)

### Significant events since the financial year end

On 6 December 2021, the Registered Office of the Company changed from 32 Molesworth Street, Dublin 2, D02 Y512, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 6 December 2021, the address of the Manager and Promoter changed from Invesco Investment Management Limited, Central Quay Riverside IV, Sir John Rogerson's Quay, Dublin 2, D02 HD32, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 9 December 2021 (one day prior to maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). As a result of these extensions, all previously grandfathered swaps lost their 871m grandfather status (please refer to Note 15 Taxation for further details). There is no expected impact to the NAV of the respective funds or to the Company as a result of the maturity of the grandfathered swaps which were positions entered into prior to the implementation of the section 871m regulations, as they subsequently merged into the non-grandfathered swaps which existed on the same funds. Both swap counterparties continue to support these funds on the same economic terms.

#### Affected Funds/Swaps

Invesco Consumer Discretionary S&P US Sector ETF  
Invesco Consumer Staples S&P US Select Sector ETF  
Invesco Energy S&P US Select Sector ETF  
Invesco Financials S&P US Select Sector UCITS ETF  
Invesco Health Care S&P US Select Sector UCITS ETF  
Invesco Industrials S&P US Select Sector UCITS ETF  
Invesco Technology S&P US Select Sector UCITS ETF

Effective 7 February 2022 the following funds had a management fee reduction from 0.30% to 0.20%:

Invesco STOXX Europe 600 Optimised Automobiles & Parts UCITS ETF  
Invesco STOXX Europe 600 Optimised Banks UCITS ETF

Invesco STOXX Europe 600 Optimised Utilities UCITS ETF

### Russian-Ukraine Conflict

Due to the current market disruption created by the Russian-Ukraine conflict and deteriorating tradability of Russian Shares and GDRs, dissemination of the Reference Index for the Invesco RDX UCITS ETF has been suspended. As a result, the Directors of Invesco Markets plc based on the advice of the promoter and investment manager have determined that it is in the best interests of the shareholders to suspend calculation of the Net Asset Value ("NAV") and to suspend creations and redemption of shares in the Fund with effect from 2 March 2022. We continue to monitor the situation but cannot provide any guidance at this time as to when or if the suspension will be lifted. The Board have agreed that all management fees be waived from the date of suspension.

## Directors' Report (continued)

### Russian-Ukraine Conflict (continued)

No other funds had any net economic Russian exposure, with the exception of Invesco MSCI Emerging Markets UCITS ETF and Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF (both of which had immaterial Russian exposures on their index returns), and the above Invesco RDX UCITS ETF. By the synthetic strategy of the funds, and the mechanism of the outperformance swap in place, the return in Russian equities is swapped out for the return on the index, further mitigating the fund's exposure and maintaining effective tracking error. The above Russian exposures are not material to the Company as a whole.

### Post year end NAV movements

The Net Asset Value ("NAV") at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. Movement in the NAV of the funds relate to capital movement, none of the funds underlying index has dropped significantly since the balance sheet date with the exception of the Invesco RDX UCITS ETF which has fallen due to the current Russian-Ukraine conflict.

Fund Name	NAV as at Balance Sheet date 30 November 2021	NAV as at 18 March 2022	%
			Change
Invesco MSCI Europe UCITS ETF	63,354,320	54,718,368	(13.63%)

There were no other significant events since the financial year end.

## Directors' Report (continued)

### Managing the risks presented by the outbreak of Coronavirus

The spread of the new coronavirus (COVID-19) disease has caused significant volatility within the global economy and financial markets. To date, the primary focus of our response has been threefold:

- to ensure the health and safety of our employees;
- to preserve our ability to serve our clients; and
- to appropriately manage client assets in a highly dynamic market environment.

The Directors of the 61 Funds are actively monitoring the situation and, with the support of the investment manager, continue to manage the Fund's assets within its investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate through this period of heightened uncertainty.

During the recent year of significant market volatility as a result of COVID-19, the volume of net redemptions has not been significant.

None of the sub-funds with large net redemptions during this year give the Board of Directors for the Company cause for concern.

### Going Concern

Having assessed the principal risks and the other matters included in connection with the Financial Statements, the Directors consider it appropriate to adopt the going concern basis in preparing the Financial Statements. This assessment of going concern covers the 12 month period after the signing of these Financial Statements. The Directors have arrived at this opinion by considering, among other matters:

- the portfolio of investments held by the Company materially consists of liquid investments; and
- the Company has no material borrowings.

### On Behalf of the Board of Directors

Director:

Director:

Date: 30 March 2022

## Depository Report to the Shareholders

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depository to Invesco Markets plc ("the Company") provide this report solely in favour of the shareholders of the Company for the financial year ended 30 November 2021 ("the Annual Accounting Period"). This report is provided in accordance with the UCITS Regulations - European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, which implemented Directive 2009/65/EU into Irish Law ("the Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depository obligation as provided for under the Regulations, we have enquired into the conduct of the Company for the Annual Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

For and on behalf of

Northern Trust Fiduciary Services  
(Ireland) Limited.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESCO MARKETS PLC**

### **Report on the audit of the financial statements**

#### ***Opinion***

We have audited the English language version of the financial statements of Invesco Markets plc ("the Company") for the year ended 30 November 2021 set out on pages 52 to 755, which comprise the Schedule of Investments, the Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares, the Statement of Cash Flows and related notes, including the summary of significant accounting policies set out in note 1. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 30 November 2021 and of its increase in net assets attributable to holders of redeemable shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### ***Basis for opinion***

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the Board of Directors.

We were appointed as auditor by the directors on 3 June 2020. The period of total uninterrupted engagement is the two years ended 30 November 2021. We have fulfilled our ethical responsibilities under, and we remained independent of the Company in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA) as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

#### ***Conclusions relating to going concern***

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the Company's ability to continue to adopt the going concern basis of accounting included considering the inherent risks to the Company's business model and analysis of how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. The risks we considered most likely to adversely affect the Company's available financial resources over this period was the availability of capital to meet operating costs and other financial commitments (liquidity risk) and the valuation of investments at fair value as a result of market performance (price risk). In the director's assessment it was noted that the Company held, and continues to hold, a large number of shares through different sub-funds, and the composition of the sub-funds' portfolios reduces the going concern risk resulting from market performance of the investments. The director's assessment is consistent with our understanding of the Company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESCO MARKETS PLC (continued)

### **Key audit matters: our assessment of risks of material misstatement**

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, we determined that there was one key audit matter in the financial statements of the Company, as follows (unchanged from 2020):

**Accuracy, Valuation and Ownership of financial assets at fair value through profit or loss EUR 30,068,521,257 (2020: EUR 19,146,202,456) and financial liabilities at fair value through profit or loss EUR 180,126,203 (2020: EUR 64,814,320)**

Refer to page 623 to 625 (Note 1c-accounting policy) and pages 660 to 683 (Note 2g-fair value information)

#### **The key audit matter**

The Company's financial assets and financial liabilities at fair value through profit or loss (collectively "investments") make up 99.35% of the net asset value ("NAV") of the Company, and are considered to be the key driver for the Company's results.

While the nature of the Company's investments do not require significant levels of judgement, they are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole.

Investments held by the Company include outperformance swaps, total return swaps, forward currency contracts, equities and US treasury bills.

The Company's investments have the greatest impact on our overall audit strategy and allocation of resources throughout our audit.

#### **How the matter was addressed in our audit**

Our procedures included:

- We obtained an understanding of the process in place to record investment transactions and to value the portfolio of investments;
  - We engaged our valuation specialists to assist us in independently repricing and valuing 99.9% of investments held at 30 November 2021;
  - We obtained independent external confirmation of all positions held in the investment portfolio from the Depository and derivative counterparties, reconciling them to the Company's records; and
  - We assessed the adequacy of the disclosures of investments in accordance with the fair value hierarchy set out in IFRS 13.
- No material misstatements were identified as a result of the procedures performed.

#### **Our application of materiality and an overview of the scope of our audit**

The materiality for the Company financial statements as a whole was set at EUR 300.99 million (2020: EUR 191.51 million). This has been calculated with reference to a benchmark of the Company's net asset value ("NAV") (of which it represents 100 basis points) as at 30 November 2021, which we consider to be one of the principal considerations for members of the Company in assessing the financial performance of the Company. We report to the Board of Directors all corrected and uncorrected misstatements we identified through our audit with a value in excess of 5 basis points of the Company's net asset value, in addition to other audit misstatements below that threshold that we believe warranted reporting on qualitative grounds. With specific regard to the valuation of the Company's financial assets and liabilities at fair value through profit or loss, we also report to the Board of Directors all corrected and uncorrected misstatements we have identified through our audit with a value in excess of 50 basis points of each sub-fund's NAV.

Our audit of the Company was undertaken to the materiality level specified above and was all performed by the one engagement team in Dublin.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESCO MARKETS PLC (continued)**

### ***Other information***

The directors are responsible for the preparation of the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the General Information, the Investment Objectives and Policies, the Investment Manager's Report, the Directors' Report, the Depositary's Report to the Shareholders, the Statement of Changes in Composition of Portfolio (Unaudited), Remuneration Disclosure (Unaudited), Securities Financing Transactions Regulations (Unaudited) and Sustainable Finance Disclosure Regulation (Unaudited).

The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements; and
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

### ***Corporate governance disclosures***

In addition we report, in relation to information given in the Corporate Governance Statement on page 39, that:

- based on knowledge and understanding of the Company and its environment obtained in the course of our audit, no material misstatements in the information identified above have come to our attention; and
- based on the work undertaken in the course of our audit, in our opinion:
  - the description of the main features of the internal control and risk management systems in relation to the process for preparing the financial statements is consistent with the financial statements and has been prepared in accordance with the Companies Act 2014;
  - the Company is not subject to the European Communities (Takeover Bids (Directive 2004/25/EC)) Regulations 2006 and therefore not required to include information relating to voting rights and other matters required by those Regulations and specified by the Companies Act 2014 for our consideration in the Corporate Governance Statement;
  - the Corporate Governance Statement contains the information required by the Companies Act 2014; and
  - the Corporate Governance Statement contains the information required by the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESCO MARKETS PLC (continued)**

### **Our opinions on other matters prescribed the Companies Act 2014 are unmodified**

We have obtained all the information and explanations which we consider necessary for the purpose of our audit.

In our opinion, the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the Company's financial statements are in agreement with the accounting records.

### ***We have nothing to report on other matters on which we are required to report by exception***

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

### **Respective responsibilities and restrictions on use**

#### ***Directors' responsibilities***

As explained more fully in their statement set out on page 38, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### ***Auditor's responsibilities***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud, other irregularities or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. The risk of not detecting a material misstatement resulting from fraud or other irregularities is higher than for one resulting from error, as they may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control and may involve any area of law and regulation and not just those directly affecting the financial statements.

A fuller description of our responsibilities is provided on IAASA's website at [https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf).

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INVESCO MARKETS PLC (continued)**

### ***The purpose of our audit work and to whom we owe our responsibilities***

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for our report, or for the opinions we have formed.

# Notes to the Financial Statements

## 1. Significant Accounting Policies

### A) General Information

#### Basis of preparation

These Financial Statements have been prepared in accordance with International Financial Reporting Standards as adopted by European Union ("IFRS") and the International Financial Reporting Interpretations Committee ("IFRIC") interpretations endorsed by the European Union ("EU") and with those parts of the Companies Act 2014 (as amended) applicable to companies reporting under IFRS and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The Financial Statements have been prepared under the historical cost convention as modified by the fair value measurement of financial assets and liabilities held at fair value through profit or loss. The significant accounting policies are set out below.

The preparation of Financial Statements in conformity with IFRS requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting financial period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The financial statements of the Company have been prepared on a going concern basis.

In preparing these financial statements, the Directors made judgements and estimates that affect the application of the Company's accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about judgements made by management in the application of IFRS that have the most significant effect on the Financial Statements and estimates with a significant risk of material adjustment in the next period are disclosed in note 1(c) and 1(d).

With the exception of the below, the same accounting policies and methods of computation are followed in these annual report and audited financial statements as compared with the year ended 30 November 2020 audited set of financial statements prepared under IFRS.

#### International Financial Reporting Standards

##### (i) New accounting pronouncements effective from 1 December 2020

Standards which did not have any impact on the financial statements of the Company: IFRS 9 prepayment feature, IAS 28 long term interest in associates and joint ventures, IAS 19 plan amendment, Annual improvement cycle 2015-2017.

Standards available for early adoption and which were not early adopted: Conceptual framework, IFRS 3 definition of a business, Definition of material, IFRS 9 IBOR reform and Covid 19-related rent concessions.

The following new and amended standards and interpretations are not expected to have a significant impact on the Fund's financial statements.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37).
- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16).
- Annual Improvements to IFRS Standards 2018-2020.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).
- Reference to the Conceptual Framework (Amendments to IFRS 3).
- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- IFRS 17 Insurance Contracts and amendments to IFRS 17 Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- Definition of Accounting Estimates (Amendments to IAS 8).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

### B) Functional and presentation currency

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

The Financial Statements of the Company are presented in Euro, which is both the functional and presentation currency.

Each individual Fund's functional currency is disclosed on pages 11 and 12.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### B) Functional and presentation currency (continued)

##### Transactions and balances

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit and loss are recognised together with other changes in the fair value. Net currency gains/(losses) are net foreign exchange gains and losses on monetary financial assets and liabilities other than those classified at fair value through profit or loss.

Assets and liabilities denominated in foreign currencies, other than the functional currency, have been translated at the rate of exchange ruling at 30 November 2021. Transactions in foreign currencies are translated into Euro at the exchange rate ruling at the date of the transaction. All gains/(losses) on foreign exchange are recognised in the Statements of Comprehensive Income in determining the result for the financial year.

Notional foreign currency gains/(losses) are included in the foreign exchange adjustment. The notional foreign exchange adjustment arises from the translation of opening net assets translated at financial period end 30 November 2020 rates, the Statement of Comprehensive Income, subscriptions and redemptions at average rates; with closing assets and liabilities translated at the rates of exchange ruling at 30 November 2021.

The following exchange rates were used to convert investments, assets and liabilities to the functional currency of the Company:

Invesco NASDAQ-100 Swap UCITS ETF Dist	0.855311
Invesco S&P 500 ESG EUR Hedged	0.878690

#### C) Financial assets and financial liabilities at fair value through profit or loss

##### (i) Classification

Purchases and sales of financial assets at fair value through profit or loss are recognised on trade date - the date on which the Company commits to purchase or sell the financial instrument. Financial assets at fair value through profit or loss are derecognised when the rights to receive cash flows from the financial assets at fair value through profit or loss have expired or the Company has transferred substantially all risks and rewards of ownership. Realised fair value gains and losses on disposals of financial instruments are calculated using the Average Cost method - the cost of financial asset/liability calculated using weighted average unit costs.

##### Financial Assets

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, Fair Value Through Other Comprehensive Income ("FVTOCI") and Fair Value Through Profit or Loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cashflows; and
- The contractual cash terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### C) Financial assets and financial liabilities at fair value through profit or loss (continued)

##### (i) Classification (continued)

###### *Financial Assets (continued)*

A debt instrument is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets: and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### **(a) Financial Assets at Fair Value**

On initial recognition, the Company has irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

All Company's financial assets are classified as measured at FVTPL. This includes all equity securities, US Treasury Bills and derivative financial assets.

The Company invests in Transferable Securities at a fair value of EUR 29,968,816,921 at 30 November 2021 (30 November 2020: EUR 19,098,602,197) which are mandatorily classified as FVTPL.

###### **(b) Financial Assets at Amortised Cost**

Included in financial assets at amortised cost are receivables for securities sold which are held for collection, other receivables, cash and cash equivalents and cash collateral. Recognition is initially at fair value and subsequently measured at amortised cost using the effective interest rate, less provision for impairment. At each reporting date, the Company shall measure the loss allowance on cash collateral at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Company shall measure the loss allowance at an amount equal to 12-month expected credit losses, or shorter if the receivable is expected to settle in less than 12 months. All financial assets are short term and always lifetime losses are booked.

Significant increase in credit risk is defined by the Board of Directors as any contractual payment which is more than 30 days past due.

###### **(c) Financial Liabilities and forward foreign currency contracts**

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as FVTPL if it is classified held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial liabilities at FVTPL:

- Held for trading: securities sold short and derivative financial instruments.

Financial liabilities at amortised cost:

- This includes fees payables, other payables and redemptions payables.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within other net losses on financial assets and liabilities at fair value through profit or loss in the year in which they arise.

##### (ii) Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

###### **Listed investments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of investments (Equities and US Treasury Bills) which are quoted, listed, traded or dealt with on a market or exchange are based on quoted prices which, for the purpose of the Financial Statements, is the last traded market price for financial assets and financial liabilities as at the Statement of Financial Position date. Forward foreign exchange contracts are valued at market settlement price.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### C) Financial assets and financial liabilities at fair value through profit or loss (continued)

##### (ii) Valuation of investments (continued)

###### Listed investments (continued)

Realised gains or losses on disposal of investments during the financial year/year and unrealised gains and losses on valuation of investments held at the financial year end are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit and loss.

###### Unlisted investments

In the case of investments (outperformance swaps and total return swaps) which are not quoted, listed or dealt with on a recognised market, the fair value of such investments shall be calculated in accordance with the valuation technique, comprising of observable data which tracks the performance of the relevant underlying Reference Index/strategy against the performance of the underlying equity basket (in the case of outperformance swaps) or a financing component (in the case of total return swaps) used in the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF and the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF (collectively the "Commodity Funds") respectively.

In the case of the valuation of the Reference Index/strategy leg of the swap, the observable inputs are the initial Reference Index/strategy value and the current Reference Index/strategy value. For the equity leg of the outperformance swap, the value is that of the underlying equity basket. The components of the financing leg of the total return swap are interest and fees.

The swaps in these Funds are contracts between the Fund and the counterparties. In the case of outperformance swaps, the Fund agrees to exchange with the counterparties the gains/(losses) arising on the equity basket in the Fund for the total return on the relevant Reference Index/strategy on a daily basis.

In the case of a total return swap the Fund receives positive performance on the underlying Reference Index from the counterparty and pays negative performance on the underlying Reference Index, fees and interest to the counterparty.

Any change in the fair value of these outperformance or total return swaps is included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

Realised gains and losses are recognised when the contract is closed out and are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

The net asset or liability under the outperformance or total return swap contracts are included as fair value through profit or loss in the Statements of financial position.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract at the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and the forward price, and is recognised in the Statement of Comprehensive Income.

##### (iii) Impairment

###### Financial assets subject to IFRS 9's impairment requirements:

The Company measures credit risk and Expected Credit Loss ("ECL"), using probability of default, exposure at default, and loss given default. The Company considers both historical analysis and forward-looking information in determining any ECL. At 30 November 2021 and 30 November 2020, all amounts due from brokers and receivables are held with counterparties with a credit rating of A2 or higher. Management consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on lifetime ECL as any such impairment would be wholly insignificant to the Company.

Credit ratings are disclosed in note 2C.

###### Financial assets not subject to IFRS 9's impairment requirements:

The Company is exposed to credit risk on debt securities and derivative assets. These classes of financial assets are not subject to IFRS 9's impairment requirements as they are measured at FVTPL. The carrying value of these assets, under IFRS 9 represent the Company's maximum exposure to credit risk on financial instruments not subject to the IFRS 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

##### (iv) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### D) Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. Actual results may differ from these estimates. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined above and/or below.

All of the Funds' financial assets and financial liabilities classified as financial assets and financial liabilities at fair value through profit or loss as at 30 November 2021 and 30 November 2020.

#### E) Fees and expenses

In accordance with the Prospectus the Management fees are charged to the Statement of Comprehensive Income on an accruals basis. Other than the Management fees, all fees and expenses incurred by the Funds including those payable to the Investment Managers, the Sub-Investment Manager, the Depositary, the Administrator, the Auditor and the Directors are paid by the Manager.

#### F) Cash and cash equivalents

Cash balances represent residual cash subsequent to trading and is minimal on most Funds. As at 30 November 2021 and 30 November 2020 cash in all Funds was held on deposit with The Northern Trust Company, with the exception of Invesco STOXX Europe 600 Optimised Automobiles & Parts UCITS ETF, Invesco Industrials S&P US Select Sector UCITS ETF and Invesco MSCI Emerging Markets UCITS ETF which held in an overdraft position with The Northern Trust Company due to the timing of settling trades, details of which are disclosed in note 8.

Cash is held in the name of the Company and proportionally allocated between the Funds, please refer to note 2(C). Funds have segregated securities accounts at sub custody level for each market however the unsegregated Company cash accounts are utilised to settle trades and hold any cash balances.

#### G) Redeemable shares

Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount, the carrying amount of redeemable shares approximates fair value. Any distributions on these shares are recognised in the Statements of comprehensive Income as finance costs.

#### H) Segment reporting

Operating Segments are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocation of resources and assessing the performance of the operating segment has been identified as the Board of Directors. The Board of Directors make the strategic resource allocations on behalf of the Company. Each Fund is managed as one operating segment.

#### I) Valuation point

The valuation point used for the purposes of the Financial Statements is that of 30 November 2021, the last Business Day of the financial year. The valuation point for the comparative financial year used for the purposes of the Financial Statements is that of 30 November 2020 for the Statement of Comprehensive Income, Statement of changes in net assets attributable to holders of redeemable shares, Statement of Cash Flows and related notes, the last Business Day of that financial year.

#### J) Distributions

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Articles, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement. The Company total distributions figure should not be read in isolation, it is merely a consolidation of the Funds. Distributions should be viewed on a Fund level. Details of Distributions are disclosed in note 7.

#### K) Swap income policy

In relation to the Invesco RDX UCITS ETF, swap income is receivable based on the embedded dividends within the underlying Reference Index. These stocks are not held by the Fund on ex or record date, therefore the Fund does not receive any dividend income directly. Income reflective of dividends paid by equities on the Reference Index (net of withholding) is paid to the Fund by the relevant derivative counterparties. Therefore the income is derived as a direct result of the swap itself and has been included in net gains/losses on financial assets and financial liabilities at FVTPL.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### L) Dividend income

In the financial year ended 30 November 2021, no dividend income was received by the Funds (30 November 2020: Nil).

#### M) Finance costs

Finance costs comprises of distributions and interest expense. Please refer to note 1(J) for further details on distributions. Interest expense is recognised on a time-proportionate basis using the effective interest method. It includes interest expense on debt securities at fair value through profit or loss. The interest expense paid during the financial year was in relation to the Commodity Funds.

#### N) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers or dealers. Transaction costs, when incurred, are included as part of the cost of such purchases.

Transaction costs on treasury bills, total return/outperformance swaps and forward currency contracts could not be separately identified. Transaction costs on these are included in the purchase and sales price of the investment and cannot be separately verified or disclosed. Transaction costs on equities investments are embedded in the cost of the investment and included in net gains/(losses) on financial assets at fair value through profit or loss within the Statement of Comprehensive Income of each Fund.

Swap expenses are paid to the swap counterparties under normal terms of business and are included in realised gain/(loss) on outperformance swaps or total return swaps in the Statements of Comprehensive Income. For further details, refer to note 10, note 4 and note 13.

Sector transaction fees are payable by the Authorised Participants to the Manager. Please refer to note 13 for further information.

#### O) Interest Income

Interest income is recognised on a time-proportionate basis using the effective interest method. It includes interest income on debt securities at fair value through profit or loss. The interest income earned during the financial year was in relation to the Commodity Funds.

#### P) Collateral

The Commodity Funds and the counterparties review the value of the daily mark to market values of the total return swaps and agree a daily collateral call based on the value of the daily mark to market values of the total return swaps. The collateral received by the Commodity Funds may be USD cash, securities or comprise both USD cash and securities. The collateral pledged by the Commodity Funds can only be US Treasury Bills. Cash collateral received by the Commodity Funds is included gross in the Statement of Financial Position as cash collateral received from counterparty and cash collateral payable to counterparty.

The Commodity Funds may pledge or receive collateral other than cash i.e. securities being US Treasury Bills to or from the counterparty and Forward foreign exchange contracts. If the Funds have to pledge collateral to the counterparty they will deliver the Commodity Funds' underlying securities which comprise US Treasury Bills to the counterparty's depository. If the Fund receives collateral other than cash then the counterparty will deliver the securities to the Commodity Funds through physical deposit with the Commodity Funds' Depository.

It is not the policy of the Fund to reinvest or re-pledge collateral received. If the collateral is in the form of securities they are held in the custody of Northern Trust Fiduciary Services (Ireland) Limited and similarly if cash is received it is held by the Depository on behalf of the Fund.

In the context of the European Market Infrastructure Regulation (EMIR) - Variation Margin Rules which came into force on 1 March 2017, all Funds with the exception of the Commodity Funds have implemented a collateral model that allows pledging collateral to Swap Counterparties in the form of equities. There are two Swap Counterparties affected by this model, namely J.P. Morgan Securities plc and Goldman Sachs International.

This collateral model is unilateral and involves Segregated Collateral Accounts which have been set up for each Fund.

Collateral posted to a counterparty by or on behalf of a Fund must be taken into account when calculating counterparty risk exposure. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty.

Equities pledged as collateral are marked with an asterisk in each respective Schedule of investments.

Non-cash collateral pledged is not derecognised from the Statement of financial position unless the Company defaults on its obligations under the relevant agreement, and therefore continues to be recognised on the Statement of Financial Position within the appropriate asset classification.

#### Q) Net Gain from Financial Instruments at Fair Value through Profit or Loss

Net gain from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences.

Net realised gain from financial instruments at fair value through profit or loss is calculated using Average Cost method and recognised in Net (losses)/gains on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

## Notes to the Financial Statements (continued)

### 2. Financial risks

As defined by IFRS 7 'Financial Instruments: Disclosures', risk arising on financial instruments can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk.

Invesco Capital Management LLC is the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A is also the Investment Manager to all other Funds of the Company with the exception of the Commodity Funds.

Operationally, the day-to-day management of the Commodity Funds has been delegated to the Sub-Investment Manager. Moreover, the risk management for the Commodity Funds has been outsourced to the Sub-Investment Manager. Therefore, for purposes of note 2 Financial risks, the term 'Investment Manager' is assimilated to Assenagon Asset Management S.A.

Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the Directors of the Company.

The main risks arising from the Funds' financial instruments and derivatives are market risk, liquidity risk and credit risk.

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of the respective references.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed below.

#### A) General

The risk monitoring process is the responsibility of the Company which has delegated this responsibility to the Manager and the Investment Manager.

The Company's investment objective is that each Fund will seek to provide Shareholders with a target performance linked to the performance of a Reference Index or reference asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or reference asset. Each Fund shall also use exchange-traded financial derivative instruments and transactions and/or Over-the-Counter ("OTC") derivatives to achieve the target performance.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk of each Fund's portfolio at any given time.

Each Fund is managed by a portfolio manager. Each portfolio manager has authority to undertake derivative transactions on behalf of the Fund he/she manages, subject to the restrictions applicable to each Fund.

The portfolio manager is supported by a trade order management system ("TOMS"), which is designed to manage the implementation of the portfolio manager's strategy and assist in the process of managing the Funds.

These systems generate exception reports highlighting any inconsistency between the Funds' investment objectives and restrictions, and the Funds' portfolios.

The risk management team is a unit of the Investment Manager and is independent of the portfolio managers. It is responsible for the day to day risk monitoring process in respect of the Investment Manager's duties. Global exposure, position and counterparty exposure are monitored by the risk management team. The risk management process is supported by the Investment Manager's internal systems which are designed to assess the Fund's risk and exposures on a daily basis.

The Investment Manager will report in writing confirming compliance with the guidelines laid down in the Risk Management Policy document and the Prospectus, at least monthly to the named Designated Person, and will report to the Board of Directors at least quarterly.

#### B) Market risk

Market risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following type of risk:

- interest rate risk;
- currency risk; and
- other price risk;

As the Funds' strategy is to passively track the respective Reference Indices or Reference Strategies, the Investment Manager aims to verify and ensure that the individual market risks to which the Funds are exposed are in line with the risks of the relevant Reference Index or Reference Strategy.

The Commitment Approach is used for all Funds.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### B) Market risk (continued)

##### Commitment Approach

Under the Commitment Approach technique, the positions on derivative financial instruments must be converted into equivalent positions on the underlying assets. The method used to convert the derivative financial instruments into equivalent positions on the underlying assets must be adapted to the type of instrument involved.

The Funds' total commitment to derivative instruments, limited to 100% of the Funds' total net asset value, is then quantified as a sum, as an absolute value, of the individual commitments, after consideration of possible effects of netting and coverage. When calculating the measure of global exposure in accordance with the Commitment Approach, the global exposure will be the incremental market exposure the Fund assumes as a result of entering into transactions.

The Funds' total exposure to the Reference Strategies/Indices is limited to 100% of Net Asset Value.

##### (i) Interest rate risk

As at 30 November 2021 and 30 November 2020, the interest rate risk arises at Fund level.

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and the future cash flows.

The Funds' financial assets other than cash and Treasury Bills are non-interest bearing, and consequently the Company and Funds' exposure to interest rate risk is minimal. The actual duration of the Treasury Bill portfolios as at 30 November 2021 of the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF and the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF was 76 days, 81 days and 75 days respectively (30 November 2020: 100 days, 97 days and 107 days respectively), so interest rate risk is low.

Cash balances are maintained at a minimum in all Funds, and therefore the exposure to interest rate risk is not significant.

There were no large cash balances held at the financial year end, with the exception of the Invesco S&P 500 UCITS ETF and the Commodity Funds (30 November 2020: Invesco MSCI USA UCITS ETF, Invesco Technology S&P US Select Sector UCITS ETF, Invesco Health Care S&P US Select Sector UCITS ETF, Invesco RDX UCITS ETF and the Commodity Funds). The exposure to interest rate risk is not significant at the financial year end.

##### (ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

As at 30 November 2021 and 30 November 2020, the currency risk arises at Fund level.

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and non-monetary liabilities to be a component of other price risk and not foreign currency risk.

Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Non-monetary items are any other assets and liabilities other than monetary ones.

Since the foreign cash balances held by the Depositary are minimal apart from the Funds listed above, the currency risk in relation to monetary assets is insignificant for the Company and its Funds. The Funds, in line with the securities comprising their underlying indices, are exposed to the currency risk of the respective Reference Index/strategy. The Investment Manager monitors the Funds' currency risk to ensure that it replicates that of the securities comprising the underlying Reference Index/strategy. The Funds are not exposed to significant currency risk as all the swaps settle in the base currency of the Fund.

##### (iii) Other price risk

As at 30 November 2021 and 30 November 2020, the price risk arises at Fund level. For each Fund this risk is in line with the risk of the Reference Index/Strategy.

Other price risk is the risk that the value of investments will fluctuate as a result of changes in market price (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or similar financial instruments traded in the market.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### B) Market risk (continued)

##### (iii) Other price risk (continued)

##### Other price risk - sensitivity analysis

The sensitivity analysis for the Fund assumes a change in the market price of the investments while holding all other variables constant. In practice this is unlikely to occur and changes in some of the variables may be correlated.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### C) Credit risk

The Company and its Funds are exposed to credit risk, which is the risk that one party to a financial instrument or other obligation will cause a financial loss for the other party by failing to discharge an obligation.

The Company on behalf of a Fund may enter into derivative transactions in OTC markets, which will expose the Fund to the credit risk of its counterparties and their ability to satisfy the terms of such contracts. For example, the Company on behalf of the Fund may enter into repurchase agreements, forward contracts, options and swap arrangements or other derivative techniques, each of which exposes the Fund to the risk that the counterparty may default on its obligations to perform under the relevant contract.

In addition the Commodity Funds are exposed to counterparty risk on parties with whom they trade and will bear the risk of settlement default. The Commodity Funds may enter into transactions with counterparties whereby collateral is posted or received by the Commodity Funds to or from the counterparty. There were US Treasury Bills pledged by the Commodity Funds as at 30 November 2021 (30 November 2020: none). There was no cash collateral received by the Commodity Funds as at 30 November 2021. Full details of cash collateral received by the Commodity Funds as at 30 November 2020 is noted in note 18. The Commodity Funds pledged securities as collateral to the counterparties. When cash or securities are received as collateral from the counterparties, the Depositary on behalf of the Commodity Funds takes physical receipt of the cash and securities. The cash and securities are held by the Depositary on behalf of the Commodity Funds and the credit risk exposure of the Commodity Funds is therefore considered minimal as all securities deposited with the Depositary will be clearly identified as being assets of the Funds. If the Commodity Funds are required to pledge cash or securities as collateral the Depositary will deliver the required collateral to the counterparties on behalf of the Commodity Funds.

All other Funds with the exception of the Commodity Funds may also pledge collateral in the form of equity securities. Securities pledged by the Funds are held by the Depositary and the credit risk exposure of the Funds is therefore considered minimal.

Please refer to the Schedule of investments of the individual Fund's for concentration of credit risk by market and industry.

Please refer to the Schedule of investments of the Invesco Bloomberg Commodity UCITS ETF on page 468 for information on Notional amounts of forward currency transactions.

In the event of the bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses. These losses could include declines in the value of its investment during the financial year in which the Company seeks to enforce its rights, an inability to realise any gains on the Company's investment during such financial year and fees and expenses incurred in enforcing its rights.

There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to recover any losses incurred. Derivative contracts such as swaps entered into by the Company on behalf of a Fund on the advice of the Investment Manager involve credit risk that could result in a loss to the relevant Fund.

The Funds trade with approved counterparties having a minimum credit rating of A2/P2 or equivalent, or is deemed by the Company to have an implied rating of A2/P2. Alternatively, an unrated counterparty will be acceptable where each Fund is indemnified against losses suffered as a result of a failure by the counterparty, by an entity which has and maintains a rating of A2/P2.

All credit ratings remain same of the counterparties at 30 November 2021 are as follows: Société Générale A+/A-1 (30 November 2020: A+/A-1), Goldman Sachs International A+/A-1 (30 November 2020: A+/A-1), Morgan Stanley & Co. International plc A+/A-1 (30 November 2020: A+/A-1), J.P. Morgan Securities plc A+/A-1 (30 November 2020: A+/A-1), Citigroup Global Markets Limited A+/A-1 (30 November 2020: A+/A-1), UBS AG A+/A-1 (30 November 2020: A+/A-1), JPMorgan Chase Bank A+/A-1 (30 November 2020: A+/A-1), Deutsche Bank AG, London Branch A-/A-2 (30 November 2020: BBB+/A-2), Merrill Lynch International A+/A-1 (30 November 2020: A+/A-1), Morgan Stanley Capital Services LLC A+/A-1 (30 November 2020: A+/A-1) and Citibank, N.A. London Branch A+/A-1 (30 November 2020: A+/A-1).

The S&P rating of the issuer of all US Treasury Bills held by the Commodity Funds at 30 November 2021 was AA+/A-1+ (30 November 2020: AA+/A-1+).

The Investment Manager uses a mark to market approach to quantify, monitor and manage the credit risk exposure to derivative counterparties.

The Investment Manager imposes a credit exposure limit of 0.20% of Net Asset Value subject to a minimum value of EUR 100,000. In case the swap mark to market value exceeds this 0.20% limit the Investment Manager intends to trigger a swap reset, except for the Commodity Funds where a collateral call is made in case exposure exceeds the Minimum Transfer Amount agreed between the Funds and each swap counterparty. Additionally, the Investment Manager intends to impose a swap reset in case credit exposure to a swap counterparty exceeds EUR 400,000. Exposure can be higher than 0.20%. These resets or collateral calls can occur on a daily basis.

The swaps are also reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

Finally the Investment Manager follows detailed procedures for the construction of equity baskets and Treasury Bills portfolios designed to reduce potential credit exposure and enhance Fund liquidity.

As at 30 November 2021, the unrealised gains/(losses) on the open swap positions are disclosed in the Schedule of investments of each Fund.

The Company's Depositary is Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary").

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### C) Credit risk (continued)

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Company, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at financial year-end date 30 November 2021, NTC had a long term credit rating from Standard & Poor's of A+ (30 November 2020: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Company's ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU) by assessing whether the Company holds the ownership based on information or documents provided by the Company or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Company, clearly identifiable as belonging to the Company, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Company on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Company will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Company's rights with respect to its assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Northern Trust Corporation has provided a guarantee to Invesco Markets plc in relation to the payment of any obligations owing by Northern Trust Fiduciary Services (Ireland) Limited to Invesco Markets plc under the Depositary Agreement upon written demand after 30 days of any non-payment.

Northern Trust Corporation has the right under the guarantee to assert any such defences available to the Northern Trust Fiduciary Services (Ireland) Limited in relation to any such payments.

The Company is also exposed to credit risk through collateral held on the Commodity Funds with The Northern Trust Company which has a credit rating at the financial year end of AA-/A-1+ (30 November 2020: AA-/A-1+).

The total return swaps and outperformance swaps are unfunded.

#### D) Liquidity risk

As at 30 November 2021 and 30 November 2020, the liquidity risk arises at Fund level.

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to negotiate or liquidate a position at an advantageous price, or at all. The Investment Manager is satisfied that the approved counterparties will close out their swaps at any time at fair value.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed. The liquidity of these equities can be utilised in responding to changes in the notional value of the swaps of the Funds.

The Investment Manager monitors the 10 days average daily trading volume of the underlying equity stocks for the OTC derivatives (swaps) to ensure that sufficient liquidity remains in the market for these securities.

Redeemable Shares are redeemed on demand at the Shareholder's option.

Even though the Shares may be listed on one or more relevant stock exchanges, there can be no certainty that there will be liquidity in the Shares on any relevant stock exchange or that the market price at which the Shares may be traded on a relevant stock exchange will be the same as or approximately equal to the Net Asset Value per Share.

As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a relevant stock exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a relevant stock exchange may be halted or suspended due to market conditions or for the reason that, in the relevant stock exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the relevant stock exchange's rules. If trading on a relevant stock exchange is halted, investors may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Company to redeem Shares in accordance with the provisions set out in the Prospectus.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### D) Liquidity risk (continued)

The Company has the discretion in circumstances set out in the Prospectus to temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares.

The following tables analyse the Fund's financial liabilities into relevant maturity groupings based on the length of time remaining between the Statement of Financial Position date and the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant. All amounts are stated in sub-fund currency.

\* The Fund launched on 10 March 2020.

All of the Fund's derivative financial instruments in a loss position are all due within 7 days to 1 month.

Please refer to the Schedule of investments of the Invesco Bloomberg Commodity UCITS ETF on page 468 for information on Notional amounts of forward currency transactions.

The swaps are reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

#### E) Specific instruments

##### Forward foreign exchange contracts

The Funds may enter into forward foreign exchange contracts.

The fair value of the forward foreign exchange contracts is determined using quoted forward exchange rates at the reporting date and present value calculations. Details of the unrealised gains/(losses) on each open forward foreign exchange contracts can be found in the Schedules of investments of each Fund.

##### Swap agreements

The Funds of the Company enter into swap agreements. Swap agreements are privately negotiated agreements between the Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals.

The Funds except for the Commodity Funds enter into outperformance swaps where the Fund exchanges the performance of the equity securities it owns for the target performance as described in the relevant supplement. The outperformance swaps are a cost efficient method of achieving the target performance.

The Commodity Funds enter into total return swaps which exchange an interest payment for the target performance.

The Investment Manager monitors the liquidity of the underlying equities and counterparty credit quality.

Details of the unrealised gains/(losses) on each open swap position can be found in the Funds' Schedules of investments.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares can change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

Please refer to note 7 for dividends strategy.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

#### G) Fair value information

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statements of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Investments whose values are based on quoted market prices in active markets and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Level 2 amounts above represent outperformance/total swaps. These are priced using a valuation comprising of observable data which tracks the performance of the Reference Index against the performance of the Fund's underlying equity basket.

The Schedule of investments shows the equities split by level, country of origin and industry group. The derivatives are outperformance/total swaps and forwards. All equities and treasury bills are classified as Level 1 and all outperformance/total swaps and forwards as Level 2.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

The Funds do not have any investments, and have not entered into any transactions, requiring this type of valuation during the financial year. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### G) Fair value information (continued)

The following tables analyse within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value. Amounts are stated in US Dollars, Euro, Sterling and Japanese Yen.

As at 30 November 2021

\* The Fund launched on 10 March 2020.

#### Level 3 reconciliation

There were no level 3 assets held during the financial years ended 30 November 2021 and 30 November 2020.

The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The fair value of the outperformance swaps and total return swaps held by the Funds is arrived at using a valuation technique comprising of observable data. Forward foreign exchange contracts are valued at market settlement price.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Outperformance and total return swaps are marked to market daily in line with the valuation technique which uses values from third party vendors and the change in value, if any, is recorded as an unrealised gain or loss on the Statements of Financial Position. The values used in the swap mark to market calculation are the prices of the basket of equities (outperformance swaps) or Treasury Bills (total return swaps) held by the Fund and the price of the underlying Reference Index/ strategy of the Fund, which represent the opposing sides of the swap.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### G) Fair value information (continued)

##### Level 3 reconciliation (continued)

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of other receivables and payables are assumed to approximate their fair value.

##### Financial assets and liabilities not measured at fair value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. They are categorised as Level 2 in the fair value hierarchy.

#### H) Offsetting Financial Instruments

The Company has not offset any financial assets and financial liabilities in the Statement of Financial Position. Financial liabilities includes collateral pledged, please refer to Note 18 for further detail of the collateral pledged by the Company as at 30 November 2021. Financial assets and financial liabilities which are subject to enforceable master netting arrangements or similar agreements such as derivative clearing agreements are detailed for 30 November 2021 and 30 November 2020 in the tables below and overleaf:

30 November 2021	Currency	Gross amounts of recognised financial assets	Gross amounts of recognised financial liabilities offset in the statement of financial position	Net amounts of financial assets presented in the statement of financial position	Related amounts not offset in the statement of financial position		Net Amount

### 6. Management fees

The Management fees, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Fund to the Manager. The Management fee accrues on each day and is calculated on each Dealing Day and paid monthly (or more often) in arrears. The Manager pays out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Managers, the Sub-Investment Manager, the Administrator, the Depository, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Fund that include setting up costs and other administrative expenses as described in the Prospectus. Operating expenses are disclosed in the Statement of Comprehensive Income and in Note 5.

The fees in the following table are expressed as a percentage per annum of the Fund's net asset value.

### 7 Distributions

The following distributions were declared during the financial year ended 30 November 2021:

#### Invesco EURO Stoxx 50 UCITS ETF

There are no distribution entitlements for the Class A Shares. With respect to Class B Shares only and at the discretion of the Board of Directors, the Fund aims to pay a distribution calculated by reference to the embedded reinvested dividends within the Reference Index during the relevant dividend financial year and the Swap Index seeks to track the price performance of the companies contained within the Reference Index and distributions made by those companies. There is no guarantee that any distribution will be paid.

Financial Year ended 30 November 2021	EUR	Financial Year ended 30 November 2020	EUR
17 December 2020	647,622	19 December 2019	372,976
24 June 2021	1,689,422	25 June 2020	695,100
<b>Total</b>	<b>2,337,044</b>	<b>Total</b>	<b>1,068,076</b>

#### Invesco MSCI USA UCITS ETF

There are no dividend entitlements for the Class Acc. With respect to Class Dist Shares and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends usually on or around 20 March, 20 June, 20 September and 20 December in each year calculated by reference to the embedded reinvested dividends within the Swap Index during the relevant dividend year less taxes or other withholding. There is no guarantee that any dividend will be paid.

All other expenses payable are paid by the Manager. Included in these are Directors fees payable of EUR 6,667 (30 November 2019: EUR 6,667).

\* The Fund launched on 10 March 2020.

### 11. Segment reporting

IFRS 8 requires disclosures in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income. Management have determined the CODM is the Board of Directors.

All revenues are derived from financial assets and are attributable to a country based on the domicile of the issuer of the instrument. The tables below show a breakdown of the interest income. The Schedule of investments discloses the investments of the Fund at their fair value by their respective country of origin.

#### Invesco RDX UCITS ETF

## Notes to the Financial Statements (continued)

---

### 12. Use of financial derivative instruments and efficient portfolio management

Subject to the UCITS Regulations and to the conditions within the limits laid down by the Central Bank of Ireland, the Company, on behalf of a Fund, may invest in Financial Derivative Instruments ("FDIs") dealt on a regulated market and/or OTCs which can be used for investment purposes, hedging and/or efficient portfolio management purposes. During the financial year ended 30 November 2021 the Company did not use FDIs for the purpose of efficient portfolio management.

The FDIs in which a Fund may invest are repurchase agreements, spot and forward currency contracts, options on securities, indices and currencies, swaps, credit default swaps, futures and options on futures and when issued, forward commitment securities, further details of which will be set out in the relevant Supplement.

As at 30 November 2021 and 30 November 2020, the only FDIs held by the Funds except for the Commodity Funds were outperformance swaps; where the performance of the equity baskets are netted against the performance of the Reference Index or Reference Asset, if the Reference Index/strategy outperforms the equity basket, the swap Counterparty pays the difference to the Fund; and vice versa.

As at 30 November 2021 and 30 November 2020, the only FDIs held by the Commodity Funds were total return swaps and forward currency contracts, which exchange an interest payment for the target performance.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

For further information on the exposure obtained through the use of FDIs and the identity of the counterparties please refer to the Fund's Schedule of investments. For details on the collateral pledged please refer to the Funds' Statement of Financial Position.

---

### 13. Related and connected parties transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

#### Related Parties

##### Directors

The amount paid to Directors in the financial year to 30 November 2021 and the financial year to 30 November 2020 by the Manager and the amounts outstanding on 30 November 2021 and 30 November 2020 are disclosed in note 5 (Operating Expenses) and note 10 (Payables) respectively. The Directors who are also employees of the Invesco Group are not entitled to receive Directors' fees.

Barry McGrath is a Director of the Company, the Manager, and Invesco Holdings Limited. Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of the Invesco UK Services Limited. Anne-Marie King was a Director of the Company and a Director of Cross Border Fund Governance at Invesco Investment Management Limited, as well as one of the Conducting Officers of Invesco Management SA. Anne-Marie King resigned on 15 September 2021. No fees were paid to KB Associates during the financial year by the Company (30 November 2020: Nil). KB Associates performed the designated person role for Invesco Markets plc. Feargal Dempsey is also a Director of the Company and the Manager. Katy Walton Jones is a Director of the Company. Katy Walton Jones was appointed on 6 September 2021.

##### Manager

The Company has appointed Invesco Investment Management Limited to act as Manager to the Company and each Fund. The Manager forms part of the Invesco group of companies, the parent of which is Invesco Limited, a US publicly traded company listed on the New York Stock Exchange with ticker IVZ. The management fee charged for the financial year was EUR 30,442,921 (30 November 2020: EUR 27,038,928), of which EUR 1,200,922 was outstanding at 30 November 2021 (30 November 2020: EUR 851,143).

The Manager was charged EUR 18,617 (inclusive of VAT) secretarial fees by MFD Secretaries Limited on behalf of Invesco Markets plc in the financial year to 30 November 2021 to the Manager (30 November 2020: EUR 15,575); and the amount outstanding at the end of the financial year was nil (30 November 2020: EUR 2,596). The Manager was charged EUR 346,034 (inclusive of VAT) legal fees by Maples and Calder on behalf of Invesco Markets plc in the financial year to 30 November 2021 (30 November 2020: EUR 150,614); and the amount outstanding at the financial year end was Nil (30 November 2020: Nil).

##### Connected Parties

##### Investment Managers

Invesco Capital Management LLC is a related party and the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is a connected party and the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A is also the Investment Manager to all other Funds of the Company. The Funds paid no fees directly to the Investment Managers/Sub-Investment Manager and fees paid by Manager on behalf of the Funds. As outlined in note 5 of these Financial Statements, all other expenses are paid by the Manager on behalf of the Funds.

## Notes to the Financial Statements (continued)

### 13. Related and connected parties transactions (continued)

#### Significant agreements

##### Authorised Participants

The Authorised Participants are related parties by virtue of their direct shareholding in the Fund or through a shareholding of one of their respective group companies. The complete list of Authorised Participants is shown in the Organisation section on pages 8-10.

There were no brokerage fees paid to the Authorised Participants during the financial year ended 30 November 2021 (30 November 2020: Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Fund but are not significant at financial year end. There is no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

### 14. Auditors' remuneration

As required under Section 322 of the Companies Act 2014 (as amended), the remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	Financial year ended 30 November 2021 EUR	Financial year ended 30 November 2020 EUR
Statutory audit of company accounts	326,905	339,150
Other assurance services	25,000	-
	<b>351,905</b>	<b>339,150</b>

EUR 351,905 was outstanding at the financial year end (30 November 2020: EUR 339,150). The above fees are presented exclusive of VAT and are paid by the Manager.

### 15. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.
- any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

## Notes to the Financial Statements (continued)

### 15. Taxation (continued)

Funds which purchase derivatives after 1 January 2017, on the net total return versions\* of indices deemed to be non-qualifying under Section 871(m) of the U.S. Internal Revenue Code, receive a cash dividend amount from each derivative counterparty. The derivative counterparty will withhold and pay such amount to the IRS in satisfaction of the Funds' tax liability under this code. The cash dividend amount is based on the number of Reference Index units the Fund holds and the weight of the Reference Index component on each ex-date multiplied by the applicable withholding tax rate. Derivative positions detailed in the relevant Funds' Schedule of investments may comprise of two positions with both Goldman Sachs and Morgan Stanley: one traded prior to the 1 January 2017 which is grandfathered and not liable for withholding tax and a position traded after 1 January 2017 which is liable. On 9 December 2021 (one day before maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). Due to that extensions the previously grandfathered swaps lost their 871m grandfather status. One week later swaps that were previously split between different MS accounts in ETFM were merged.

There are currently 12 Funds in scope, namely: Invesco Consumer Discretionary S&P US Select Sector UCITS ETF, Invesco Consumer Staples S&P US Select Sector UCITS ETF, Invesco Energy S&P US Select Sector UCITS ETF, Invesco Financials S&P US Select Sector UCITS ETF, Invesco Goldman Sachs Equity Factor Index World UCITS ETF, Invesco Health Care S&P US Select Sector UCITS ETF, Invesco Industrials S&P US Select Sector UCITS ETF, Invesco KBW NASDAQ FinTech UCITS ETF and Invesco Materials S&P US Select Sector UCITS ETF, Invesco Real Estate S&P US Select Sector UCITS ETF, Invesco Technology S&P US Select Sector UCITS ETF and Invesco Utilities S&P US Select Sector UCITS ETF.

The tax element applicable to each of the Funds listed above is rolled up into the realised and unrealised gains/(losses) on outperformance swaps.

During the financial year ended 30 November 2021 and 30 November 2020, the derivative counterparties withheld and paid respective amounts to IRS in satisfaction of the Funds' tax liability under this code. The amounts paid, which is rolled up into the realised and unrealised gains/(losses) on outperformance swaps and does not affect Funds Nav, amount paid in respect of all funds is immaterial.

*\* The Invesco Morningstar US Energy Infrastructure MLP UCITS ETF, trades the Gross Return Reference Index. US master limited partnerships ("MLPs") are structured so that distributions are generally treated as capital rather than income. However some MLPs own securities that distribute income to the MLP, which means the MLP's own distribution would include income and could be subject to withholding tax. Invesco has agreed with its derivative counterparties that any tax which may arise will not be charged to the fund and thus will not affect the funds' performance.*

### 16. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

Details of the number of shares issued and redeemed during the financial year per Fund are contained below:

\* The Fund launched on 10 March 2020.

\*\* The Fund launched on 22 March 2021.

### 18. Collateral

The collateral for the Commodity funds is bilateral. The Funds have entered into an International Swaps and Derivative Agreement ("ISDA") with each Counterparty being Citigroup Global Markets, Deutsche Bank London, Morgan Stanley & Co LLC, Goldman Sachs International, J.P. Morgan Securities plc, these ISDA were in place throughout the financial year ending 30 November 2021. Based on the value of the daily mark to market values of the total return swap, Assenagon Asset Management S.A. ("the Sub-Investment Manager") on behalf of the Commodity funds agrees a daily collateral call with the counterparties. If the Funds are required to pledge collateral they will deliver securities which comprise US Treasury Bills as collateral. If the Funds are to receive collateral from the counterparty they will receive USD cash or UK Gilts, US Treasury Bills or Bonds or German Bonds. If the Funds receive collateral, the collateral will not impact the Fund's net assets. If the Funds are required to pledge collateral, then the Funds will deliver securities being the US Treasury Bills to the counterparty. Based on the value the Investment Manager agrees a daily collateral call with the counterparties. Collateral calls are made in line with the timings, minimum transfer amounts and other parameters defined in the Credit Support Annex to the ISDA with the respective counterparty.

## Notes to the Financial Statements (continued)

### 18. Collateral (continued)

There were US Treasury Bills pledged by the Commodity Funds as at 30 November 2021 (30 November 2020: none).

**Invesco Commodity Composite UCITS ETF as at 30 November 2021**

			<b>(18,276,973)</b>

There was no cash collateral received by the Commodity Funds as at 30 November 2021. Cash collateral received by the Commodity Funds as at 30 November 2020 is detailed in the table below. This has been disclosed on a gross basis in the Statement of Financial Position.

As at 30 November 2020	Total EUR	Invesco Commodity Composite UCITS ETF USD	Invesco Bloomberg Commodity UCITS ETF USD	Invesco Bloomberg Commodity Ex- Agriculture UCITS ETF USD
Cash Collateral received from Counterparty	5,450,589	820,000	4,230,000	1,470,000
	<b>5,450,589</b>	<b>820,000</b>	<b>4,230,000</b>	<b>1,470,000</b>

The collateral for all other funds is unilateral. The Funds have entered into a Charge Account Control Agreement ("the Agreement") with each Swap Counterparty being J.P. Morgan Securities plc and Goldman Sachs International. The Agreement is in place from 25 August 2017 and from 11 August 2017 respectively. The collateral model involves the pledge of collateral to the Swap Counterparties in the form of equities. Equities pledged as collateral are marked with an asterisk in the Schedule of investments.

## Notes to the Financial Statements (continued)

---

### 19. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current or prior financial year.

---

### 20. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended) the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund. While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

---

### 21. Operating Segment

IFRS 8 requires disclosure in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income, which may consist of interest and dividends. Management have determined that the CODM is the Board of Directors.

The Funds except for the Commodity Funds trade a portfolio of equities and outperformance swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset.

The Commodity Funds trade a portfolio of US Treasury Bills and total return swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index.

The segment information provided to the Investment Manager and Sub Investment Manager is the same as that disclosed as at 30 November 2021, in the Statements of comprehensive income, in the Statement of Financial Position, in Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Preference Shares, in the Statement of Cash Flows and Schedule of investments for each Fund.

The internal reporting provided to the Board of Directors for the Company assets and liabilities and performance is prepared on a consistent basis with the measurement and recognition of IFRS. Apart from the Invesco RDX UCITS ETF Fund, which earned EUR 366,234 (USD 435,770) (30 November 2020: EUR 662,707 (USD 749,550)); none of the Funds earned swap income during the financial year.

Each Fund is operating as a single operating segment.

There were no changes in the reportable segments during the financial year. The Funds have no assets classified as non-current assets. In respect of the Invesco RDX UCITS ETF Fund, please see page 712 for detailed analysis of swap income received from Authorised Participants.

In respect of the Funds which operate hedged share classes, these hedged share classes do not represent separate operating segments from their respective Funds.

---

### 22. Comparative figures

The share classes below have no comparative's as they launched after 30 November 2020.

Invesco NASDAQ-100 Swap UCITS ETF Acc launched 22 March 2021.

Invesco NASDAQ-100 Swap UCITS ETF Dist launched 18 June 2021.

Invesco S&P 500 ESG EUR Hedged launched 5 November 2021.

## Notes to the Financial Statements (continued)

### 23. Significant events during the financial year

#### Brexit

Pursuant to the European Referendum Act 2015, a referendum on the UK's membership of the EU was held on 23 June 2016 with the majority voting to leave the EU. On 29 March 2017, the UK Government exercised its right under Article 50 of the Treaty of the European Union and officially notified the EU of the United Kingdom's intention to withdraw from the EU. The UK consequently left the EU on 31 January 2020, and entered into a transition period which lasted until 31 December 2020. The transition period ended with arrangements in place between the UK and the Member States of the EU.

The Manager does not believe that Brexit presents significant issues that cannot be mitigated given that the Funds are domiciled in Ireland and can still passported into Europe (ex UK) and are all currently registered for marketing into the UK under the FCA's Temporary Passporting Regime (TPR). Core counterparties of and service providers to the Company have contingency arrangements available as necessary to ensure that activities can continue with minimal disruption. The Manager has plans to ensure that the Funds will continue to be recognised for sale in the UK once the TPR ends. The Manager, is part of a global group and has been committed for many years to meeting clients' needs across Europe in both EU and non-EU countries. The change in the UK's status from an EU to a non-EU country has not changed the group's focus or commitment to serve its clients across Europe. The Manager is monitoring developments closely, through a Brexit Steering Committee, to ensure that the impact on clients and the Company is minimal.

Effective 1 March 2021, the management fee rate per annum for Invesco MSCI Emerging Markets UCITS changed from 0.29% to 0.19%.

Effective 3 March 2021 an addendum to the Prospectus in relation to SFDR updates was issued.

The following share classes launched during the financial year:

	Launch date
Invesco NASDAQ-100 Swap UCITS ETF Acc	22 March 2021
Invesco NASDAQ-100 Swap UCITS ETF Dist	18 June 2021
Invesco S&P 500 ESG EUR Hedged	5 November 2021

On 30 March 2021, shareholders in Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF were notified that with effect from 1 May 2021 the sub-fund will no longer comply with the Plan d'Epargne en Actions ("PEA") requirements in France, which the sub-fund had previously been eligible for as a result of the withdrawal of the United Kingdom from the European Union (the "EU") effective 31 December 2020. In order to maintain eligibility for the PEA, a sub-fund must invest on a permanent basis at least 75% of its NAV in companies having their registered office in the EU or part of the EEA which has agreed a tax treaty with France.

On 21 May 2021 Invesco RBIS Equal Risk Equity US UCITS ETF, Invesco RBIS Equal Risk Equity Europe UCITS ETF and Invesco GPR Real Estate Europe UCITS ETF were revoked from the Central Bank.

On 14 May 2021, shareholders in Invesco Commodity Composite UCITS ETF were notified that with effect from 16 June 2021 Solactive AG, as index sponsor, is replacing two of the constituent indices of the reference index as follows:

- the JPMCCI Ex-Front Month Energy Light Index Total Return is being replaced with the Citi CUBES (DJUBSCI Weighted) Index Total Return;
- the Morgan Stanley BCOM Forward 3 Months Pre-Roll Index (Total Return) is being replaced with the MSCY Radar F3 Roll Index TR.

Katy Walton Jones was appointed to the Board with effective date 6 September 2021.

Effective 15 September 2021, Anne-Marie King resigned from the Board.

Effective 22 October 2021, an updated Prospectus was issued.

#### Managing the risks presented by the outbreak of Coronavirus

The spread of the coronavirus (COVID-19) disease has caused significant volatility within the global economy and financial markets. To date, the primary focus of our response has been threefold:

- to ensure the health and safety of our employees;
- to preserve our ability to serve our clients; and
- to appropriately manage client assets in a highly dynamic market environment.

The Directors of the 61 Funds are actively monitoring the situation and, with the support of the investment manager, continue to manage the Fund's assets within its investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate through this period of heightened uncertainty.

There were no other significant events during the financial year end.

## Notes to the Financial Statements (continued)

### 24. Significant events since the financial year end

On 6 December 2021, the Registered Office of the Company changed from 32 Molesworth Street, Dublin 2, D02 Y512, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 6 December 2021, the address of the Manager and Promoter changed from Invesco Investment Management Limited, Central Quay Riverside IV, Sir John Rogerson's Quay, Dublin 2, D02 HD32, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 9 December 2021 (one day prior to maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). As a result of these extensions, all previously grandfathered swaps lost their 871m grandfather status (please refer to Note 15 Taxation for further details). There is no expected impact to the NAV of the respective funds or to the Company as a result of the maturity of the grandfathered swaps which were positions entered into prior to the implementation of the section 871m regulations, as they subsequently merged into the non-grandfathered swaps which existed on the same funds. Both swap counterparties continue to support these funds on the same economic terms.

Invesco STOXX Europe 600 Optimised Travel & Leisure UCITS ETF

Invesco STOXX Europe 600 Optimised Utilities UCITS ETF

### **Russian-Ukraine Conflict**

Due to the current market disruption created by the Russian-Ukraine conflict and deteriorating tradability of Russian Shares and GDRs, dissemination of the Reference Index for the Invesco RDX UCITS ETF has been suspended. As a result, the Directors of Invesco Markets plc based on the advice of the promoter and investment manager have determined that it is in the best interests of the shareholders to suspend calculation of the Net Asset Value ("NAV") and to suspend creations and redemption of shares in the Fund with effect from 2 March 2022. We continue to monitor the situation but cannot provide any guidance at this time as to when or if the suspension will be lifted. The Board have agreed that all management fees be waived from the date of suspension.

No other funds had any net economic Russian exposure, with the exception of Invesco MSCI Emerging Markets UCITS ETF and Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF (both of which had immaterial Russian exposures on their index returns), and the above Invesco RDX UCITS ETF. By the synthetic strategy of the funds, and the mechanism of the outperformance swap in place, the return in Russian equities is swapped out for the return on the index, further mitigating the fund's exposure and maintaining effective tracking error. The above Russian exposures are not material to the Company as a whole.

## Notes to the Financial Statements (continued)

### 24. Significant events since the financial year end (continued)

#### Post year end NAV movements

The Net Asset Value ("NAV") at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. Movement in the NAV of the funds relate to capital movement, none of the funds underlying index has dropped significantly since the balance sheet date with the exception of the Invesco RDX UCITS ETF which has fallen due to the current Russian-Ukraine conflict.

Fund Name	NAV as at		% Change

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

**Invesco STOXX Europe 600 Optimised Retail UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

**Invesco STOXX Europe 600 Optimised Technology UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

**Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)  
For the financial year ended 30 November 2021**

\* The Fund launched on the 22 March 2021.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

## **Supplemental Information (Unaudited) Remuneration Disclosure**

### **Remuneration policy**

Invesco Investment Management Limited (the "Management Company") has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy includes specificities for some Invesco EU regulated Management Companies. The Management Company was not impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company's compliance with its duty to act in the best interests of the UCITS it manages. The Management Company's summary remuneration policy is available on our website ([www.invescomanagementcompany.ie](http://www.invescomanagementcompany.ie)). The Management Company's full remuneration policy is available for free from the registered office (see address page 8) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group's remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2021 (1st January 2021 to 31st December 2021) is EUR 7.29m of which EUR 5.76m is fixed remuneration and EUR 1.53m is variable remuneration. The number of beneficiaries is 51.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2021 (1st January 2021 to 31st December 2021) is EUR 1.14m of which EUR 0.78m is paid to Senior Management and EUR 0.36m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.

## Supplemental Information (Unaudited)

### Securities Financing Transactions Regulations

The following information is presented with regard to Securities Financing Transactions Regulation (EU) 2015/2365 ("SFTR") on transparency of securities financing and of reuse. The Board of Directors considers the outperformance swaps held by the funds to meet the definition of total return swaps ("TRSs") within those regulations. The Authorised Participants listed on pages 9 and 10 of the financial statements may also be counterparties to the Swaps.

#### Global Data

Securities and commodities on loan as a proportion of total lendable assets. There were no lendable assets during the financial year.

## **Supplemental Information (Unaudited)**

### **Securities Financing Transactions Regulations (continued)**

#### **Re-use of Collateral**

Collateral is not re-used.

#### **Safekeeping - Collateral Received**

All collateral received/payable is held on behalf of the funds by Northern Trust Company. Cash of EUR nil was payable as collateral to Deutsche Bank AG, London Branch, Goldman Sachs & Co, JP Morgan Securities LLC, Citigroup Global Markets INC and Morgan Stanley & Co LLC at 30 November 2021 (30 November 2020: 5,450,589). Full details of cash collateral received by Commodity Funds is noted in note 18.

#### **Return & Cost**

Returns and costs for total return swaps are received/borne 100% by each fund and netted with realised gain/(losses) on outperformance swaps. The monetary amounts are disclosed in Note 4 Net gains/(losses) on financial assets and liabilities at fair value through profit or loss to each fund as Realised gains/(losses) and Net change in unrealized appreciation/(depreciation) on outperformance swaps and total return swaps.

## **Supplemental Information (Unaudited) Sustainable Finance Disclosure Regulation**

### **Sustainable Finance Disclosure Regulation ("SFDR")**

Invesco S&P 500 ESG UCITS ETF (the "Fund") is an Article 8 fund within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability disclosures in the financial services sector.

The environmental and social characteristics promoted by the Fund are to provide exposure to the risk and return profile of the S&P 500 Index (the "Parent Index") whilst improving ESG (environmental, social and governance) characteristics. The Fund achieves this by tracking the S&P 500 ESG Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index is market-cap-weighted and designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the Parent Index. Exclusionary criteria is applied to the Parent Index to exclude securities that:

- 1) are involved in business activities in tobacco, thermal coal and controversial weapons;
- 2) have a low United Nations Global Compact score; or
- 3) have an S&P Dow Jones Index ESG Score that falls within the worst 25% of ESG scores from each GICS industry group.

The Fund's environmental and social characteristics have been met by replicating the Reference Index and by applying the business involvement exclusion criteria of the methodology of the Reference Index. In addition, securities that are excluded from the Parent Index after application of the methodology of the Reference Index are also excluded from the Fund basket.

The most recent version of the Funds supplement can be found via the link below.

[https://etf.invesco.com/sites/default/files/documents/Invesco\\_S%26P\\_500\\_ESG\\_UCITS ETF\\_SUP\\_EN.pdf](https://etf.invesco.com/sites/default/files/documents/Invesco_S%26P_500_ESG_UCITS ETF_SUP_EN.pdf)

The Fund generally expects to invest a proportion of its assets in sustainable investments in economic activities that contribute to the environmental objectives of climate change mitigation and climate change adaptation which may be eligible to be assessed for alignment with Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation"). Due to the widespread lack of available data and regulatory uncertainty, the Fund is not yet in a position to confirm the degree of Taxonomy alignment of its sustainable investments with an environmental objective.

The Manager will monitor if the required data to measure the Fund's alignment with the environmental objectives under the Taxonomy Regulation becomes available and the Supplement will be updated when the Manager is satisfied that it can determine the degree of alignment.
