## General Information

### Description

Invesco Markets plc (the "Company") is an open-ended variable capital company with segregated liability between sub-funds of the Company ("Funds"). The Company was incorporated on 16 October 2008. It is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella investment company, and comprises separate Funds which may be established from time to time by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank").

A Fund is defined as a separate portfolio of assets which is invested in accordance with the investment objective and policies set out in the relevant Supplement and to which all liabilities, income and expenditure attributable or allocated to such portfolio shall be applied and charged.

The particulars of each Fund are set out in a separate Supplement. Any such Supplement lists all of the existing Funds. Redeemable Shares/Shares (these terms are used interchangeably throughout the Financial Statements) of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with the Prospectus. On the introduction of any new Class of Shares, the Company prepares and the Directors will issue documentation setting out the relevant details of each such Class of Shares. Except where otherwise stated or the context requires, capitalised terms have the meaning given to them in the Prospectus of the Company dated 22 October 2021.

There are 63 Funds in existence as at 31 May 2022 (31 May 2021: 61).

## Investment Objectives and Policies

The Articles provide that the investment objective and policies for each Fund be formulated by the Directors at the time of the creation of the Fund.

The investment objective of each Fund is to seek to provide Shareholders/Redeemable Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. All Funds use financial derivative instruments and transactions and/or Over-The-Counter ("OTC") derivatives to achieve the Target Performance.

In such Funds, the return that the Shareholder will receive is dependent on the performance of the transferable securities, financial derivative instruments including OTC derivatives and the performance of any techniques used to link the transferable securities, financial derivative instruments and OTC derivatives to the Reference Index or Reference Asset. Thus the return Shareholders receive may not wholly correspond to the performance of the Reference Index or Reference Asset, depending on the structure of the relevant Fund as set out in the relevant Supplement. There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The Company on behalf of the Funds intends to invest all or substantially all of the net proceeds of any issue of Shares in global equities and equity related securities (including but not limited to common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants, forward foreign exchange contracts, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that Company) and convertible securities, as well as depository receipts, for such securities all of which are traded on markets) financial derivative instruments, US treasury bills (the Commodity Funds only), units of other UCITS and swaps.

The swaps are an agreement between the Fund and the approved counterparty to exchange one stream of cash flows against another stream pursuant to a master agreement in accordance with the requirements of the international swaps and derivatives association, and such swaps may be funded, unfunded, total return or outperformance in nature.

Each approved counterparty to the swaps and the Company on behalf of the Fund has entered into a master agreement (including any supporting agreements) and will enter into confirmations for each swap transaction. Such confirmations may be entered into before or after the relevant transaction and may be in electronic form. The Authorised Participants may be counterparties to the swaps.

All Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other shares listed on a stock exchange. Any change in the investment objective or any material change to the investment policies of a Fund may only be made with the approval of the Directors, the relevant supervisory authority and by ordinary resolution of the Redeemable Shareholders of the Fund. Subject and without prejudice to the preceding sentence of this paragraph, in the event of a change of investment objective and/or policies of a Fund, a reasonable notification period must be given to each Redeemable Shareholder of the Fund to enable a Redeemable Shareholder to have its Redeemable Shares repurchased prior to the implementation of such change.

## Investment Objectives and Policies (continued)

### **Invesco EURO STOXX 50 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX 50 Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class B shares only.

The Reference Index is a leading blue-chip Index which provides a representation of STOXX Limited super sector leaders within the Eurozone. The Reference Index is comprised of 50 stocks from the Eurozone. It captures approximately 50% of the free float market capitalisation of the DJ Euro Stoxx Total Market Index, which in turn covers approximately 95% of the free float market capitalisation of the represented countries. The Reference Index has a free float market capitalisation subject to a 10% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended Collective Investment Schemes ("CIS"). The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco MSCI Europe UCITS ETF**

The investment objective of the Fund is to achieve the the net total return performance of the MSCI Europe Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation Index that is designed to measure the equity performance of the developed markets in Europe.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe Mid 200 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Mid 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of mid-capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe Small 200 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Small 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of small capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco FTSE 100 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the FTSE 100 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a market-capitalisation weighted Index representing the performance of the 100 largest UK-domiciled blue chip companies listed on the London Stock Exchange.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

### **Invesco FTSE 250 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the FTSE 250 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a capitalisation-weighted Index of the 250 mid-capitalised companies traded on the London Stock Exchange. The Reference Index is designed to measure the performance of the mid-cap capital and industry segments of the UK market not covered by the large cap FTSE 100. To qualify, companies must have a full listing on the London Stock Exchange with a Sterling or Euro dominated price on SETS or SETSmm, or a firm quotation on SEAQ or SEATS, subject to eligibility screens. The Reference Index represents approximately 14% of the UK market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

## Investment Objectives and Policies (continued)

### **Invesco MSCI USA UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI USA Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class Distributing Shares only.

The Reference Index is a free float-adjusted, market capitalisation-weighted Index designed to measure equity market performance in the US. The Reference Index provides a representation of 10 industry sectors with 612 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Russell 2000 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the Russell 2000 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a subset of the Russell 3000®, representing approximately 10% of the market capitalisation of that index. The Reference Index is comprised of approximately the 2000 companies with the lowest market capitalisation of the Russell 3000 and therefore provides a representation of the performance of the US small cap sector.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco STOXX Europe 600 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Total Market Index (TMI) and a subset of the STOXX Global 1800 Index. With a fixed number of 600 components, the Reference Index represents large, mid and small capitalisation companies across 18 countries of the European region: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. The Reference Index has a free float market capitalisation subject to a 20% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco MSCI Japan UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Japan Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an equity Reference Index of securities listed on Japanese stock exchanges. Securities listed on the Tokyo, Osaka, Fukuoka, Nagoya, Sapporo, JASDAQ and NASDAQ JP exchanges are eligible for inclusion. The Reference Index represents Japanese companies that are available to investors worldwide and provides a representation of 10 industry sectors with 348 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI World UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI World Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation weighted Reference Index that is designed to measure the performance of the global equities market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco STOXX Europe 600 Optimised Media UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Media Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Media Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Personal & Household Goods UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Personal & Household Goods Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Personal & Household Goods Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Banks UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Banks Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Banks Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Chemicals UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Chemicals Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Chemicals Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average.

This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

## **Investment Objectives and Policies (continued)**

### **Invesco STOXX Europe 600 Optimised Construction & Materials UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Construction & Materials Index (the "Reference Index") less fees, expenses and transaction costs). The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Construction & Materials Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Financial Services UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Financial Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Financial Services Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

## **Investment Objectives and Policies (continued)**

### **Invesco STOXX Europe 600 Optimised Health Care UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Health Care Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Health Care Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Industrial Goods & Services UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Industrial Goods & Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Industrial Goods & Services Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Insurance UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Insurance Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Insurance Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

### **Invesco STOXX Europe 600 Optimised Technology UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Technology Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Technology Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. ### **Invesco RDX UCITS ETF**

The investment objective of the Fund is to achieve the price return performance of the Russian Depository Index or "RDX" (the "Reference Index") less fees, expenses and transaction costs. There are no dividend entitlements for the Class Acc Shares. With respect to Class Dist Shares only, and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends.

The Reference Index reflects in real-time the movement of the most actively traded shares and depository receipts of Russian companies, which are traded on the London Stock Exchange (hereinafter referred to as LSE). The purpose of the RDX is to mirror the development of prices of the most liquid blue chip stocks. RDX is a capitalization-weighted price Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar. Effective 2 March 2022, the Fund was placed in suspension.

### **Invesco MSCI Emerging Markets UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Emerging Markets Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float-adjusted market capitalisation Index that is designed to measure equity market performance in the global emerging markets. The Reference Index provides a representation of 10 industry sectors in 22 emerging markets with 770 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco S&P 500 UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 Index (the "Reference Index") (less fees, expenses and transaction costs). Dividends may be payable in respect of Class B shares only.

The Reference Index is an index of listed equities which focuses on the Large cap segment of the US market. It includes 500 US companies with a market capitalisation greater than USD 5 billion and listed on the NYSE or one of the NASDAQ exchanges. Reference Index constituents are selected by the Reference Index committee using a series of rules as guidelines.

On 8 December 2014, the Fund launched a Euro Hedged share class. The Reference Index is the S&P 500 Euro Hedged Total Return (Net) Index ("Hedged Currency Version").

On 29 June 2020, the Fund launched a GBP Hedged share class. The Reference Index is the S&P 500 GBP Hedged Total Return (Net) Index ("Hedged Currency Version").

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco EURO STOXX Optimised Banks UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX® Optimised Banks Index (Net Return) (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float market cap weighted Index. It is a subset of the EURO STOXX® Banks Index which comprises the Eurozone subset of the STOXX® Europe 600 Banks Index. The EURO STOXX® Optimised Banks Index comprises financial services companies which are selected from the STOXX® Europe 600 Index by applying certain filters including a liquidity factor and a capping of 20%, 15% or 10% depending on the number of components in the Reference Index. The free float market capitalisation, liquidity factors (to ensure relevant components have a sufficiently liquid trading market) and cap factors (ensuring no component constitutes part of the Reference Index above a pre-determined percentage level) are reviewed quarterly. The Reference Index is comprised of certain financial services components of the STOXX® Europe 600 Index which contains the stocks traded on the major exchanges of 18 European countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro.

### **Invesco Commodity Composite UCITS ETF**

The investment objective of the Fund is to seek to achieve the price return performance of the Solactive Commodity Composite Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an index of sub-indices. The Index is designed to represent the collective performance of a wide range of commodities by providing an investible benchmark consisting of selected indices from leading global index sponsors and proprietary index providers. In order to ensure counterparty diversification, the Index includes sub-indices accessed via a minimum of three counterparties. The Reference Index is re-balanced on a quarterly basis back to equal weights on the third Wednesday of the last month of every quarter (March, June, September and December). The sub-indices are weighted equally within the Reference Index and are re-balanced back to equal weightings on a quarterly basis. As of the date of this Supplement, the Reference Index tracks the performance of the following four indices: MSCY Radar Dynamic Roll (Total Return) Index, MSCY Radar F3 Roll Index TR, Citi CUBES (DJ-UBSCI Weighted) Index Total Return and DBLCl Optimum Yield Balanced Index (each a "Sub-Index" and collectively the "Sub-Indices").

The eligible Sub-Indices are defined in the index methodology as set out by Solactive AG (the "Index Provider") and are chosen on the basis of, changes in market environment, the relevant Sub-Index's compliance with the requirements for UCITS eligibility; availability of performance history; and coverage of the investible range of commodities. The Reference Index universe is updated annually.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar, and the Fund is presented in US Dollar.

### **Invesco MSCI Europe Value UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe Value Index (Bloomberg ticker: MSVEUNTR) (the "Reference Index"). The Fund does not intend to make dividend payments.

The Reference Index is a total return Index that aims to provide an alternative exposure to the traditional MSCI Europe Index. The Reference Index reweights the constituents of the MSCI Europe Index based on four fundamental accounting variables: sales, earnings, cash earnings and book value. The resultant Reference Index maintains all the constituents of the broad based parent Reference Index but effectively tilts the investment exposure toward Reference Index constituents with relatively lower valuations, hence displaying value characteristics. The Reference Index is comprised of 513 stocks from the following countries: Austria, Belgium, Switzerland, Germany, Denmark, Spain, Finland, France, Greece, Ireland, Italy, Norway, Portugal, Sweden, the Netherlands and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro.

### **Invesco Morningstar US Energy Infrastructure MLP UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Morningstar MLP Composite Index (the "Reference Index") less fees, expenses and transaction costs. There are no dividend entitlements for the Class Acc Shares. With respect to Class Dist Shares only and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends.

The Reference Index is a diversified, distribution-dollar weighted Index that targets the top 97% of publicly trading energy master limited partnerships in the United States by market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco Goldman Sachs Equity Factor Index World UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index World Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a long-only index and the components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of global equities reflective of the five investment factors detailed below. The portfolio of global equities is drawn from a universe of stocks of approximately 11,500 securities in 85 markets around the world. There is no geographical or market focus within the Reference Index. On each monthly rebalancing day the Reference Index will draw its component stocks in accordance with the rules based methodology by reference to the following five investment factors: Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco JPX-Nikkei 400 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the JPX-Nikkei 400 Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a stock Reference Index of the top 400 stocks selected from among ordinary shares listed on the Tokyo Stock Exchange's ("TSE") 1st Section, 2nd Section, Mothers and JASDAQ markets.

On 11 March 2015, the Fund launched a EUR Hedged share class and a USD Hedged share class. The Reference Index for the EUR and USD Hedged share classes is the JPX-Nikkei 400 Net TR EUR Hedged Index and JPX-Nikkei 400 Net TR USD Hedged Index ("Hedged Currency Version") respectively.

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Japanese Yen and the Fund is presented in Japanese Yen.

### **Invesco NASDAQ Biotech UCITS ETF**

The investment objective of the Fund is to achieve the total return performance of the NASDAQ Biotechnology Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to represent the performance of biotechnology and pharmaceutical securities on the NASDAQ Stock Market®.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF**

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index Europe Net Total Return EUR (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of European equities reflective of the five investment factors (Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor). The portfolio of European equities is drawn from a universe of stocks of approximately 2,500 securities in 36 European markets.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

## Investment Objectives and Policies (continued)

### **Invesco Real Estate S&P US Select Sector UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Real Estate TR Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index is the S&P Select Sector Capped 20% Real Estate TR (Net) Index represents the real estate sector of the S&P 500 Index excluding mortgage REITs. All constituent securities are classified according to the Global Industry Classification Standard (GICS®) and maintain the same classification as that found in the parent S&P 500. The Reference Index follows a modified market capitalisation weight methodology. The weight of each stock is based on its float adjusted market cap but is modified such that no stock has a weight over 19% of the Reference Index as of each quarterly rebalancing.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Bloomberg Commodity UCITS ETF**

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg Commodity Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco KBW NASDAQ FinTech UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the KBW NASDAQ Financial Technology Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index provides exposure to companies that leverage technology to deliver financial products and services. Eligible companies must distribute products and services nearly exclusively electronically, and their revenue mix must be mostly fee-based.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF**

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg ex-Agriculture and Livestock 20/30 Capped Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is based on the Bloomberg Commodity Index (the "Parent Reference Index"). The Parent Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion in the Parent Reference Index and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity. The composition of the Reference Index is derived from the Parent Reference Index; however, three of the above groups are not eligible for inclusion in the Reference Index, namely: grains, livestock and softs. The Reference Index contains 11 commodities in three groups, namely energy, industrial metals, and precious metals.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI Europe ex-UK UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe ex UK Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation Index that is designed to measure the equity performance of the developed markets in Europe excluding the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

## Investment Objectives and Policies (continued)

### **Invesco MSCI Saudi Arabia UCITS ETF**

The investment objective of the Fund is to achieve the performance of the MSCI Saudi Arabia 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation index that is designed to measure the large and mid-cap segments of the Saudi Arabian market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF**

The investment objective of the Fund is to achieve the performance of the Goldman Sachs Equity Factor Index Emerging Markets Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of emerging market equities reflective of the five investment factors. The portfolio of emerging market equities is drawn from a universe of stocks of approximately 850 securities in 24 markets around the world.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco Communications S&P US Select Sector UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Communications Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The S&P Select Sector Capped 20% Communications Index represents the communications sector of the S&P 500 Index. All constituent securities are classified according to the Global Industry Classification Standard (GICS®, the standard recognized by market participants worldwide for global sector and industry classifications) and maintain the same classification as that found in the parent S&P 500.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco S&P SmallCap 600 UCITS ETF**

The investment objective of the Fund is to achieve the performance of the S&P SmallCap 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index tracks the performance of the small cap firms in the US market, consisting of US companies with unadjusted cap of USD450 million to USD 2.1 billion. The Reference Index contains the smallest 600 companies from the S&P 1500 composite index, which is the largest 1500 companies in the US market based on market capitalisation. The Reference Index is weighted by float-adjusted market capitalisation. For eligible firms, a primary listing on one of the following exchanges is required: NYSE, NASDAQ, Investors Exchange or CBOE, and at least 50% of shares outstanding must be available for trading. The Reference Index rebalances quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco MSCI Kuwait UCITS ETF**

The investment objective of the Fund is to achieve the performance of the MSCI Kuwait 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market-capitalisation index that is designed to measure the large and mid-cap segments of the Kuwaiti market. The Reference Index draws its constituents primarily from the financials, materials, communication services, real estate, and industrials sectors. The Reference Index is comprised of 9 constituents, and covers approximately 85% of the free float-adjusted market capitalisation in Kuwait. It has a total market capitalisation of €30 billion. Due to the market dominance of certain constituents in this market, it is necessary when replicating the Reference Index for the Fund to avail of the increased diversification limits permitted under the UCITS Regulations (which allow the Fund exposure to the shares and/or debt securities of one issuing body to be up to a maximum of 35%). The Reference Index is rebalanced quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

## Investment Objectives and Policies (continued)

### **Invesco S&P 500 ESG UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 ESG Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the S&P 500 Index (the "Parent Index"). The Reference Index has been constructed to provide a risk and return profile similar to that of the Parent Index, while improving ESG characteristics.

The Reference Index is constructed from the Parent Index by excluding from the Parent Index securities that: 1) are involved in business activities in tobacco, controversial weapons and thermal coal (extraction and power generation); 2) have a low United Nations Global Compact (UNGC) score, namely all companies at or below 5% of the UNGC score universe globally are excluded; 3.) has a S&P Dow Jones Index ("DJI") ESG Score that falls within the worst 25% of ESG scores from each global Global Industry Classification Standard ("GICS®") industry group. The S&P DJI ESG Scores employ data gathered through RobecoSAM's Corporate Sustainability Assessment (CSA), which RobecoSAM has developed and administered over 20 years.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

### **Invesco NASDAQ-100 Swap UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the NASDAQ-100 Notional Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of 100 of the largest NASDAQ-listed non-financial companies based on market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

### **Invesco S&P China A 300 Swap UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P China A 300 Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the performance of the 300 largest and most liquid stocks, as measured by total market capitalisation, in the China A-Shares market, while representing the sector balance of the broad market, subject to liquidity and Earnings per Share ("EPS") screens.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

### **Invesco S&P China A MidCap 500 Swap UCITS ETF**

The investment objective of the Fund is to achieve the net total return performance of the S&P China A MidCap 500 Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the performance of the mid-cap segment of the China A-Shares market. It comprises the 500 largest stocks by total market capitalisation in the S&P China A 1800 Index, after excluding stocks in the S&P China A 300 Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

## Investment Manager's report

### Fund review

The sub-funds of the Company aim to track the total return of a reference index or a strategy by investing in liquid and listed equities and use derivatives techniques such as index swap agreement negotiated with defined Swap Counterparts (OTC swap transaction) to achieve the index or strategy performance.

These swap-backed ETFs own securities that are not necessarily the ones in the index or strategy that the ETF is replicating as the index or strategy performance is obtained through the OTC swap transaction.

The specific investment objectives and policies for each Fund will be formulated by the Directors and set out in the Company's Prospectus and Fund Supplements. In particular, the reference index or strategy of each Fund is described in detail in the relevant Fund Supplement.

For individual Funds performance please refer to pages 30 to 32.

\* Figures are inclusive of fees. Return and Tracking Difference were calculated using the Bundesverband Investment and Asset Management (BVI) method (distributed amounts are reinvested). For funds launched after 30 November 2021, the return, the tracking difference and tracking error are calculated from the launch date.

\*\* The Fund launched on 5 May 2022.

## **Investment Manager's report (continued)**

### **Performance Analysis (continued)**

Realised tracking difference are in line with what was expected. The tracking difference between the Fund and the Reference Index/strategy is mainly driven by the Management fee and the swap fee accrual. In relation to the Commodity Funds, an additional source of tracking difference and underperformance is a slight difference between the funding leg of the swap and the interest accrual the Funds realised through the Treasury Bills portfolio. The Manager aims to keep the Tracking Error of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) below or equal to 0.50% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 0.50%.

#### **Market overview**

##### **Global equities**

The war in Ukraine threw markets in turmoil. During the reporting period from the end of November 2021 to the end of May 2022, the MSCI World net total return index dropped by 9.2 percent (the return of all indices included in this report is calculated on a net total return basis). Russia's invasion of Ukraine triggered a human and economic crisis. Western countries imposed increasingly extensive sanction packages, while Russia threatened to stop energy exports to Europe - and recently did so in the case of Poland and Bulgaria. The sanctions negatively affected production, supply chains and trade. Many companies stopped trade with Russia or had difficulty finding financial channels through which to maintain existing supply chains. Additionally, European countries started to wean themselves from Russian energy sources. The search for new oil and gas suppliers reinforced a shift in global energy markets and drove up already high commodity prices. Similarly, prices of agricultural commodities skyrocketed in the first months of 2022.

Even before the Russian invasion of Ukraine, inflationary pressure was mounting in many developed countries. Supported by comprehensive fiscal and monetary support, global demand improved significantly in 2021. On the other hand, shortages due to disrupted supply chains and geopolitical instability hindered supply expansion. The imbalance between supply and demand was reflected in higher prices. In order to rein inflation, central banks of the major economies started to tighten their ultra-expansive monetary policy by reducing bond purchases and by raising interest rates, which further weighed on economic activity.

Both the war and rising inflation had the effect of severely slowing the recovery of the global economy after the Corona pandemic. The IMF revised down its global growth forecast by 0.8 percentage points to 3.6 percent in 2022.

##### **Emerging Markets Equities**

The MSCI Emerging markets index underperformed the MSCI World index. It plunged by more than 10 percent during the reporting period. The prospect of additional rate hikes by the U.S. Federal Reserve (Fed), US dollar strength because of flight-to-quality flows, rising interest rates, concerns over the impact of the Chinese zero-Covid strategy, and, last but not least, Russia's ongoing war in Ukraine all weighed heavily on the outlook for emerging markets.

Emerging market countries are exposed to a varying degree by the developments in the Ukraine. Many countries in the Middle East, North Africa, Caucasus and Central Asia are highly dependent on direct food imports from Ukraine or Russia, particularly wheat. In these countries, the war could potentially lead to food shortages and put a strain on economic growth. Conversely, commodity exporters like Brazil, Nigeria or Saudi Arabia could benefit from higher fossil fuel and food prices, offsetting some of the adverse effects of the war on emerging economies.

Countries' varying exposure to the conflict was also reflected in a wider dispersion of sovereign bond spreads. While spreads widened the most for Russia, Ukraine and Belarus, spreads in other emerging markets, such as Poland and Hungary, recorded only a moderate increase. Sovereign spreads in Latin American countries, with fewer direct connections to Europe, also widened, mainly due to high inflation and strong policy tightening. For example, the Brazilian central bank raised interest rates by 9 percent over the past year to fight double-digit inflation.

##### **China Equities**

The S&P China A 300 Index was one of the worst performing indices. From the end of November 2021 to the end of May 2022, it lost almost 19 percent. Key driver behind that slump was the state-imposed zero-Covid strategy. In combination with the highly transmissible Omicron variant of the Coronavirus, the strategy led to frequent lockdowns. At times, entire regions such as Shanghai or Shenzhen were sealed off, with more than 200 million people living under restrictions. Moreover, real estate investment growth has slowed significantly in the wake of stricter political regulation measures. Foreign companies reacted to these more complex conditions with shifting supply chains away from China. Consequently, the Chinese gross domestic product (GDP) grew by only 4.8 percent on a year-on-year basis in the first quarter of the year, missing the official growth target of 5.5 percent for 2022.

## Investment Manager's report (continued)

### Performance Analysis (continued)

#### US equities

The MSCI USA index performed worse compared to other indices, despite the looser connections to Russia and the Ukraine. During the reporting period, the index lost almost 11 percent.

In the first quarter of 2022, gross domestic product surprisingly declined by 0.4 percent. Reduced government spending and a record trade imbalance were the main causes of the downturn, which marked an abrupt reversal for an economy that had just achieved its best performance since 1984. Despite the drawdown, inflation reached 8.3 percent in April falling slightly from 8.5 percent in March. In addition to high energy prices, comprehensive fiscal support programmes such as the CARES Act and the American Rescue Plan caused personal disposable income to rise much more than in other countries, leading to an overheating economy in 2021.

Inflationary pressures and a tight labour market prompted the Fed to move on a more aggressive path of interest hikes. At the beginning of May, the Fed raised the federal funds rate by half a percentage point to the interval of 0.75 to 1 percent, the sharpest rate increase since 2000 and the second of seven expected rate hikes for the year 2022. Additionally, the Fed announced to scale back its nearly 9 trillion USD balance sheets by adjusting the amounts reinvested of principal payments received from securities held.

#### European equities

The EURO STOXX 50 index lost 5 percent during the reporting period from the end of November 2021 to the end of May 2022. Following the Russian invasion of Ukraine, the index lost almost 12 percent. It recovered slightly in the subsequent months. The energy sector was among the strongest performers amid ongoing robust demand for oil and high prices. The financial sector also saw gains, with banks performing especially well due to an environment of rising interest rates.

Even before the war, growth in the euro area was weak. In the first quarter of the year, the block's economy grew by 0.3 percent on a quarter-on-quarter basis. In April 2022, the euro area unemployment rate was 6.8 percent, stable compared with March 2022 and down from 8.2 percent in April 2021. Headline inflation in the euro zone was 8.1 percent in May, the highest level since introduction of the euro. Above all, oil and gas prices reached new highs following the start of the war. The core rate of inflation (excluding volatile energy, food, alcohol and tobacco prices) rose from 3.5 to 3.8 percent in May. The war also affected imports of key commodities like oil, gas, base metals and agricultural products. The escalation of sanctions on Russian fossil fuels (coal, oil and possibly natural gas in the future) had severe negative macroeconomic effects on supply chains in Europe, notably in the countries most dependent on Russian energy.

High inflationary pressure put the European Central Bank (ECB) in a difficult position. On the one hand, sharply increasing prices demanded for a tightening of monetary policy. On the other side, the ECB wanted to avoid slowing down the economy by overly harsh policy measures. Accordingly, monetary policy normalisation was only moderate. The ECB announced to end net asset purchases under the pandemic emergency and the regular asset purchase programmes, but postponed interest rates hikes to the second half of 2022. Nevertheless, bond yields increased significantly in all countries of the euro area.

#### Russian equities

Due to the ongoing market disruptions resulting from Russia's invasion of Ukraine, dissemination of the reference index for the Invesco RDX UCITS ETF has been suspended.

#### Japanese equities

The Nikkei 225 index belonged to the better performing indices. During the reporting period, it lost 1 percent. The "new capitalism" programme of Japanese Prime Minister Fumio Kishida, which included proposals to reduce social inequalities and to boost the economy, was widely welcomed by the stock market.

While Japan had comparatively very low infection numbers until the end of 2021, the arrival of the Omicron variant of the Coronavirus caused a surge in the number of cases. The Japanese government applied strict emergency measures in most prefectures in the first quarter of 2022. Consequently, economic activity dropped by 0.25 percent compared with the previous quarter. While the restriction measures were lifted, the conflict in Ukraine and the lockdowns in China affected trade and prices. Headline inflation rose to 2.5 percent, the largest value since 2014, mainly due to high energy prices. In addition, price rises were announced for electricity and water supply, and some food products. The recent depreciation of the yen versus the US dollar intensified inflationary pressures. Despite higher inflation, monetary policy of the Bank of Japan remained supportive with keeping 10-year Japanese government bond yields at around zero and no limiting bond purchases.

## **Investment Manager's report (continued)**

### **Performance Analysis (continued)**

#### **Commodities**

The Bloomberg commodity index BCOM outperformed the other indices by far. During the reporting period, it gained 37 percent, mainly reflecting the importance of commodity supply from Russia and Ukraine in many markets. Together, both countries accounted for about 30 percent of global exports of wheat, 15 percent of corn, 20 percent of mineral fertilisers and natural gas, and 11 percent of oil in 2020. Accordingly, average prices for many commodities jumped in the months following the outbreak of the war: compared with January 2022, average prices for coal rose by 70 percent, wheat by more than 60 percent, gas by about 50 percent, and oil by nearly 30 percent. Other commodity prices increased only moderately. Gold was up by 10 percent, reflecting its status as a safe haven from inflation. However, rising U.S. interest rates increased the opportunity cost of owning gold, offsetting some of the gains of February and March. Prices for construction materials like aluminium or copper remained broadly stable with a gain of 6 and 1 percent, respectively.

### A) General Information

#### Basis of preparation

These Financial Statements have been prepared in accordance with International Financial Reporting Standards as adopted by European Union ("IFRS") and the International Financial Reporting Interpretations Committee ("IFRIC") interpretations endorsed by the European Union ("EU") and with those parts of the Companies Act 2014 (as amended) applicable to companies reporting under IFRS and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The Financial Statements have been prepared under the historical cost convention as modified by the fair value measurement of financial assets and liabilities held at fair value through profit or loss. The significant accounting policies are set out below.

The preparation of Financial Statements in conformity with IFRS requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting financial period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The financial statements of the Company have been prepared on a going concern basis.

In preparing these financial statements, the Directors made judgements and estimates that affect the application of the Company's accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about judgements made by management in the application of IFRS that have the most significant effect on the Financial Statements and estimates with a significant risk of material adjustment in the next period are disclosed in note 1(c) and 1(d).

The same accounting policies and methods of computation are followed in these interim report and unaudited financial statements as compared with the year ended 30 November 2021 audited set of financial statements prepared under IFRS. The interim financial statements should be read in conjunction with the annual financial statements.

#### International Financial Reporting Standards

##### (i) New accounting pronouncements effective from 1 December 2021

Standards available for early adoption and which were not early adopted: Conceptual framework, IFRS 3 definition of a business, Definition of material, IFRS 9 IBOR reform and Covid 19-related rent concessions.

The following new and amended standards and interpretations are not expected to have a significant impact on the Fund's financial statements.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37).
- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16).
- Annual Improvements to IFRS Standards 2018-2020.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).
- Reference to the Conceptual Framework (Amendments to IFRS 3).
- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- IFRS 17 Insurance Contracts and amendments to IFRS 17 Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- Definition of Accounting Estimates (Amendments to IAS 8).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

### B) Functional and presentation currency

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

The Financial Statements of the Company are presented in Euro, which is both the functional and presentation currency.

Each individual Fund's functional currency is disclosed on pages 10 and 11.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### B) Functional and presentation currency (continued)

##### Transactions and balances

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit and loss are recognised together with other changes in the fair value. Net currency gains/(losses) are net foreign exchange gains and losses on monetary financial assets and liabilities other than those classified at fair value through profit or loss.

Assets and liabilities denominated in foreign currencies, other than the functional currency, have been translated at the rate of exchange ruling at 31 May 2022. Transactions in foreign currencies are translated into Euro at the exchange rate ruling at the date of the transaction. All gains/(losses) on foreign exchange are recognised in the Statements of Comprehensive Income in determining the result for the financial period.

Notional foreign currency gains/(losses) are included in the foreign exchange adjustment. The notional foreign exchange adjustment arises from the translation of opening net assets translated at financial year end 30 November 2021 rates, the Statement of Comprehensive Income, subscriptions and redemptions at average rates; with closing assets and liabilities translated at the rates of exchange ruling at 31 May 2022.

The following exchange rates were used to convert investments, assets and liabilities to the functional currency of the Company:

EUR	31 May 2022	30 November 2021

The average exchange rates used to convert the Company totals to Euro ("EUR") were 0.840784 (31 May 2021: 0.875723) for Sterling ("GBP"), 1.104959 (31 May 2021: 1.207085) for US Dollar ("USD") and 132.010021 (31 May 2021: 128.732382) for Japanese Yen ("JPY").

The average exchange rate used to convert the Invesco JPX-Nikkei 400 UCITS ETF USD Hedged Share Class totals to USD was 119.616621 (31 May 2021: 106.687473) for JPY.

The following table provides the average exchange rate used to convert the corresponding Fund to Euro from US Dollars. The average exchange rate listed below will be different to the average exchange rate for the totals as the average is calculated over a shorter period, as the share classes launched during the financial period.

Fund	Average Exchange Rate EUR
Invesco China A 300 Swap UCITS ETF*	1.057930
Invesco China A MidCap 500 Swap UCITS ETF*	1.057930

\* The Fund launched on 5 May 2022

#### C) Financial assets and financial liabilities at fair value through profit or loss

##### (i) Classification

Purchases and sales of financial assets at fair value through profit or loss are recognised on trade date - the date on which the Company commits to purchase or sell the financial instrument. Financial assets at fair value through profit or loss are derecognised when the rights to receive cash flows from the financial assets at fair value through profit or loss have expired or the Company has transferred substantially all risks and rewards of ownership. Realised fair value gains and losses on disposals of financial instruments are calculated using the Average Cost method - the cost of financial asset/liability calculated using weighted average unit costs.

##### Financial Assets

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, Fair Value Through Other Comprehensive Income ("FVTOCI") and Fair Value Through Profit or Loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cashflows; and
- The contractual cash terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### C) Financial assets and financial liabilities at fair value through profit or loss (continued)

##### (i) Classification (continued)

###### *Financial Assets (continued)*

A debt instrument is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets: and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### **(a) Financial Assets at Fair Value**

On initial recognition, the Company has irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

All Company's financial assets are classified as measured at FVTPL. This includes all equity securities, US Treasury Bills and derivative financial assets.

The Company invests in Transferable Securities at a fair value of EUR 33,048,995,383 at 31 May 2022 (30 November 2021: EUR 29,968,816,921) which are mandatorily classified as FVTPL.

###### **(b) Financial Assets at Amortised Cost**

Included in financial assets at amortised cost are receivables for securities sold which are held for collection, other receivables, cash and cash equivalents and cash collateral. Recognition is initially at fair value and subsequently measured at amortised cost using the effective interest rate, less provision for impairment. At each reporting date, the Company shall measure the loss allowance on cash collateral at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Company shall measure the loss allowance at an amount equal to 12-month expected credit losses, or shorter if the receivable is expected to settle in less than 12 months. All financial assets are short term and always lifetime losses are booked.

Significant increase in credit risk is defined by the Board of Directors as any contractual payment which is more than 30 days past due.

###### **(c) Financial Liabilities and forward foreign currency contracts**

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as FVTPL if it is classified held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial liabilities at FVTPL:

- Held for trading: securities sold short and derivative financial instruments.

Financial liabilities at amortised cost:

- This includes fees payables, other payables and redemptions payables.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within other net losses on financial assets and liabilities at fair value through profit or loss in the period/year in which they arise.

##### (ii) Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

###### **Listed investments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of investments (Equities and US Treasury Bills) which are quoted, listed, traded or dealt with on a market or exchange are based on quoted prices which, for the purpose of the Financial Statements, is the last traded market price for financial assets and financial liabilities as at the Statement of Financial Position date. Forward foreign exchange contracts are valued at market settlement price.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### C) Financial assets and financial liabilities at fair value through profit or loss (continued)

##### (ii) Valuation of investments (continued)

###### Listed investments (continued)

Realised gains or losses on disposal of investments during the financial period/year and unrealised gains and losses on valuation of investments held at the financial period/year end are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit and loss.

###### Unlisted investments

In the case of investments (outperformance swaps and total return swaps) which are not quoted, listed or dealt with on a recognised market, the fair value of such investments shall be calculated in accordance with the valuation technique, comprising of observable data which tracks the performance of the relevant underlying Reference Index/strategy against the performance of the underlying equity basket (in the case of outperformance swaps) or a financing component (in the case of total return swaps) used in the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF and the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF (collectively the "Commodity Funds") respectively.

In the case of the valuation of the Reference Index/strategy leg of the swap, the observable inputs are the initial Reference Index/strategy value and the current Reference Index/strategy value. For the equity leg of the outperformance swap, the value is that of the underlying equity basket. The components of the financing leg of the total return swap are interest and fees.

The swaps in these Funds are contracts between the Fund and the counterparties. In the case of outperformance swaps, the Fund agrees to exchange with the counterparties the gains/(losses) arising on the equity basket in the Fund for the total return on the relevant Reference Index/strategy on a daily basis.

In the case of a total return swap the Fund receives positive performance on the underlying Reference Index from the counterparty and pays negative performance on the underlying Reference Index, fees and interest to the counterparty.

Any change in the fair value of these outperformance or total return swaps is included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

Realised gains and losses are recognised when the contract is closed out and are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

The net asset or liability under the outperformance or total return swap contracts are included as fair value through profit or loss in the Statements of financial position.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract at the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and the forward price, and is recognised in the Statement of Comprehensive Income.

##### (iii) Impairment

###### Financial assets subject to IFRS 9's impairment requirements:

The Company measures credit risk and Expected Credit Loss ("ECL"), using probability of default, exposure at default, and loss given default. The Company considers both historical analysis and forward-looking information in determining any ECL. At 31 May 2022 and 30 November 2021, all amounts due from brokers and receivables are held with counterparties with a credit rating of A2 or higher. Management consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on lifetime ECL as any such impairment would be wholly insignificant to the Company.

Credit ratings are disclosed in note 2C.

###### Financial assets not subject to IFRS 9's impairment requirements:

The Company is exposed to credit risk on debt securities and derivative assets. These classes of financial assets are not subject to IFRS 9's impairment requirements as they are measured at FVTPL. The carrying value of these assets, under IFRS 9 represent the Company's maximum exposure to credit risk on financial instruments not subject to the IFRS 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

##### (iv) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### D) Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. Actual results may differ from these estimates. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined above and/or below.

All of the Funds' financial assets and financial liabilities classified as financial assets and financial liabilities at fair value through profit or loss as at 31 May 2022 and 30 November 2021.

#### E) Fees and expenses

In accordance with the Prospectus the Management fees are charged to the Statement of Comprehensive Income on an accruals basis. Other than the Management fees, all fees and expenses incurred by the Funds including those payable to the Investment Managers, the Sub-Investment Manager, the Depositary, the Administrator, the Auditor and the Directors are paid by the Manager.

#### F) Cash and cash equivalents

Cash balances represent residual cash subsequent to trading and is minimal on most Funds. As at 31 May 2022 and 30 November 2021 cash in all Funds was held on deposit with The Northern Trust Company.

Cash is held in the name of the Company and proportionally allocated between the Funds, please refer to note 2(C). Funds have segregated securities accounts at sub custody level for each market however the unsegregated Company cash accounts are utilised to settle trades and hold any cash balances.

#### G) Redeemable shares

Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount, the carrying amount of redeemable shares approximates fair value. Any distributions on these shares are recognised in the Statements of comprehensive Income as finance costs.

#### H) Segment reporting

Operating Segments are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocation of resources and assessing the performance of the operating segment has been identified as the Board of Directors. The Board of Directors make the strategic resource allocations on behalf of the Company. Each Fund is managed as one operating segment.

#### I) Valuation point

The valuation point used for the purposes of the Financial Statements is that of 31 May 2022, the last Business Day of the financial period. The valuation point for the comparative financial period used for the purposes of the Financial Statements is that of 31 May 2021 for the Statement of comprehensive income, Statement of changes in net assets attributable to holders of redeemable shares, Statement of cash flows and related notes, the last Business Day of that financial period. For the Statement of financial position and related notes, the valuation point for the comparative purposes is that of 30 November 2021 the last Business Day of that financial year.

#### J) Distributions

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Articles, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement. The Company total distributions figure should not be read in isolation, it is merely a consolidation of the Funds. Distributions should be viewed on a Fund level. Details of Distributions are disclosed in note 6.

#### K) Swap income policy

In relation to the Invesco RDX UCITS ETF, swap income is receivable based on the embedded dividends within the underlying Reference Index. These stocks are not held by the Fund on ex or record date, therefore the Fund does not receive any dividend income directly. Income reflective of dividends paid by equities on the Reference Index (net of withholding) is paid to the Fund by the relevant derivative counterparties. Therefore the income is derived as a direct result of the swap itself and has been included in net gains/losses on financial assets and financial liabilities at FVTPL.

## Notes to the Financial Statements (continued)

### 1. Significant Accounting Policies (continued)

#### L) Dividend income

In the financial period ended 31 May 2022, no dividend income was received by the Funds (31 May 2021: Nil).

#### M) Finance costs

Finance costs comprises of distributions and interest expense. Please refer to note 1(J) for further details on distributions. Interest expense is recognised on a time-proportionate basis using the effective interest method. It includes interest expense on debt securities at fair value through profit or loss. The interest expense paid during the financial period was in relation to the Commodity Funds.

#### N) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers or dealers. Transaction costs, when incurred, are included as part of the cost of such purchases.

Transaction costs on treasury bills, total return/outperformance swaps and forward currency contracts could not be separately identified. Transaction costs on these are included in the purchase and sales price of the investment and cannot be separately verified or disclosed. Transaction costs on equities investments are embedded in the cost of the investment and included in net gains/(losses) on financial assets at fair value through profit or loss within the Statement of Comprehensive Income of each Fund.

Swap expenses are paid to the swap counterparties under normal terms of business and are included in realised gain/(loss) on outperformance swaps or total return swaps in the Statements of Comprehensive Income. For further details, refer to note 3 and note 12.

Sector transaction fees are payable by the Authorised Participants to the Manager. Please refer to note 12 for further information.

#### O) Interest Income

Interest income is recognised on a time-proportionate basis using the effective interest method. It includes interest income on debt securities at fair value through profit or loss. The interest income earned during the financial period was in relation to the Commodity Funds.

#### P) Collateral

The Commodity Funds and the counterparties review the value of the daily mark to market values of the total return swaps and agree a daily collateral call based on the value of the daily mark to market values of the total return swaps. The collateral received by the Commodity Funds may be USD cash, securities or comprise both USD cash and securities. The collateral pledged by the Commodity Funds can only be US Treasury Bills. Cash collateral received by the Commodity Funds is included gross in the Statement of Financial Position as cash collateral received from counterparty and cash collateral payable to counterparty.

The Commodity Funds may pledge or receive collateral other than cash i.e. securities being US Treasury Bills to or from the counterparty and Forward foreign exchange contracts. If the Funds have to pledge collateral to the counterparty they will deliver the Commodity Funds' underlying securities which comprise US Treasury Bills to the counterparty's depository. If the Fund receives collateral other than cash then the counterparty will deliver the securities to the Commodity Funds through physical deposit with the Commodity Funds' Depository.

It is not the policy of the Fund to reinvest or re-pledge collateral received. If the collateral is in the form of securities they are held in the custody of Northern Trust Fiduciary Services (Ireland) Limited and similarly if cash is received it is held by the Depository on behalf of the Fund.

In the context of the European Market Infrastructure Regulation (EMIR) - Variation Margin Rules which came into force on 1 March 2017, all Funds with the exception of the Commodity Funds have implemented a collateral model that allows pledging collateral to Swap Counterparties in the form of equities. There are two Swap Counterparties affected by this model, namely J.P. Morgan Securities plc and Goldman Sachs International.

This collateral model is unilateral and involves Segregated Collateral Accounts which have been set up for each Fund.

Collateral posted to a counterparty by or on behalf of a Fund must be taken into account when calculating counterparty risk exposure. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty.

Equities pledged as collateral are marked with an asterisk in each respective Schedule of investments.

Non-cash collateral pledged is not derecognised from the Statement of financial position unless the Company defaults on its obligations under the relevant agreement, and therefore continues to be recognised on the Statement of Financial Position within the appropriate asset classification.

#### Q) Related and connected persons disclosure

Persons are considered to be related if one person has the ability to control the other party or exercise significant influence over the other person in making financial or operational decisions.

## Notes to the Financial Statements (continued)

---

### 1. Significant Accounting Policies (continued)

#### Q) Related and connected persons disclosure (continued)

##### Transactions with connected persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub delegate ("connected persons") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the Shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations. Transactions involving related persons are presented in Note 12.

##### R) Net Gain from Financial Instruments at Fair Value through Profit or Loss

Net gain from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences.

Net realised gain from financial instruments at fair value through profit or loss is calculated using Average Cost method and recognised in Net (losses)/gains on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

---

### 2. Financial risks

As defined by IFRS 7 'Financial Instruments: Disclosures', risk arising on financial instruments can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk.

Invesco Capital Management LLC is the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A is also the Investment Manager to all other Funds of the Company with the exception of the Commodity Funds.

Operationally, the day-to-day management of the Commodity Funds has been delegated to the Sub-Investment Manager. Moreover, the risk management for the Commodity Funds has been outsourced to the Sub-Investment Manager. Therefore, for purposes of note 2 Financial risks, the term 'Investment Manager' is assimilated to Assenagon Asset Management S.A.

Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the Directors of the Company.

The main risks arising from the Funds' financial instruments and derivatives are market risk, liquidity risk and credit risk.

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of the respective references.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed below.

#### A) General

The risk monitoring process is the responsibility of the Company which has delegated this responsibility to the Manager and the Investment Manager.

The Company's investment objective is that each Fund will seek to provide Shareholders with a target performance linked to the performance of a Reference Index or reference asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or reference asset. Each Fund shall also use exchange-traded financial derivative instruments and transactions and/or Over-the-Counter ("OTC") derivatives to achieve the target performance.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk of each Fund's portfolio at any given time.

Each Fund is managed by a portfolio manager. Each portfolio manager has authority to undertake derivative transactions on behalf of the Fund he/she manages, subject to the restrictions applicable to each Fund.

The portfolio manager is supported by a trade order management system ("TOMS"), which is designed to manage the implementation of the portfolio manager's strategy and assist in the process of managing the Funds.

These systems generate exception reports highlighting any inconsistency between the Funds' investment objectives and restrictions, and the Funds' portfolios.

The risk management team is a unit of the Investment Manager and is independent of the portfolio managers. It is responsible for the day to day risk monitoring process in respect of the Investment Manager's duties. Global exposure, position and counterparty exposure are monitored by the risk management team. The risk management process is supported by the Investment Manager's internal systems which are designed to assess the Fund's risk and exposures on a daily basis.

The Investment Manager will report in writing confirming compliance with the guidelines laid down in the Risk Management Policy document and the Prospectus, at least monthly to the named Designated Person, and will report to the Board of Directors at least quarterly.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### B) Market risk

Market risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following type of risk:

- interest rate risk;
- currency risk; and
- other price risk;

As the Funds' strategy is to passively track the respective Reference Indices or Reference Strategies, the Investment Manager aims to verify and ensure that the individual market risks to which the Funds are exposed are in line with the risks of the relevant Reference Index or Reference Strategy.

The Commitment Approach is used for all Funds.

#### Commitment Approach

Under the Commitment Approach technique, the positions on derivative financial instruments must be converted into equivalent positions on the underlying assets. The method used to convert the derivative financial instruments into equivalent positions on the underlying assets must be adapted to the type of instrument involved.

The Funds' total commitment to derivative instruments, limited to 100% of the Funds' total net asset value, is then quantified as a sum, as an absolute value, of the individual commitments, after consideration of possible effects of netting and coverage. When calculating the measure of global exposure in accordance with the Commitment Approach, the global exposure will be the incremental market exposure the Fund assumes as a result of entering into transactions.

The Funds' total exposure to the Reference Strategies/Indices is limited to 100% of Net Asset Value.

#### (i) Interest rate risk

As at 31 May 2022 and 30 November 2021, the interest rate risk arises at Fund level.

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and the future cash flows.

The Funds' financial assets other than cash and Treasury Bills are non-interest bearing, and consequently the Company and Funds' exposure to interest rate risk is minimal. The actual duration of the Treasury Bill portfolios as at 31 May 2022 of the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF and the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF was 74 days, 69 days and 66 days respectively (30 November 2021: 76 days, 81 days and 75 days respectively), so interest rate risk is low.

Cash balances are maintained at a minimum in all Funds, and therefore the exposure to interest rate risk is not significant.

There were no large cash balances held at the financial period end, with the exception of the Invesco MSCI World UCITS ETF, Invesco STOXX Europe 600 Optimised Chemicals UCITS ETF, Invesco STOXX Europe 600 Optimised Food & Beverage UCITS ETF and the Commodity Funds (30 November 2021: Invesco S&P 500 UCITS ETF and the Commodity Funds). The exposure to interest rate risk is not significant at the financial period end.

#### (ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

As at 31 May 2022 and 30 November 2021, the currency risk arises at Fund level.

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and non-monetary liabilities to be a component of other price risk and not foreign currency risk.

Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Non-monetary items are any other assets and liabilities other than monetary ones.

Since the foreign cash balances held by the Depositary are minimal apart from the Funds listed above, the currency risk in relation to monetary assets is insignificant for the Company and its Funds. The Funds, in line with the securities comprising their underlying indices, are exposed to the currency risk of the respective Reference Index/strategy. The Investment Manager monitors the Funds' currency risk to ensure that it replicates that of the securities comprising the underlying Reference Index/strategy. The Funds are not exposed to significant currency risk as all the swaps settle in the base currency of the Fund.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### B) Market risk (continued)

##### (iii) Other price risk

As at 31 May 2022 and 30 November 2021, the price risk arises at Fund level. For each Fund this risk is in line with the risk of the Reference Index/Strategy.

Other price risk is the risk that the value of investments will fluctuate as a result of changes in market price (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or similar financial instruments traded in the market.

#### Other price risk - sensitivity analysis

The sensitivity analysis for the Fund assumes a change in the market price of the investments while holding all other variables constant. In practice this is unlikely to occur and changes in some of the variables may be correlated.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### C) Credit risk

The Company and its Funds are exposed to credit risk, which is the risk that one party to a financial instrument or other obligation will cause a financial loss for the other party by failing to discharge an obligation.

The Company on behalf of a Fund may enter into derivative transactions in OTC markets, which will expose the Fund to the credit risk of its counterparties and their ability to satisfy the terms of such contracts. For example, the Company on behalf of the Fund may enter into repurchase agreements, forward contracts, options and swap arrangements or other derivative techniques, each of which exposes the Fund to the risk that the counterparty may default on its obligations to perform under the relevant contract.

In addition the Commodity Funds are exposed to counterparty risk on parties with whom they trade and will bear the risk of settlement default. The Commodity Funds may enter into transactions with counterparties whereby collateral is posted or received by the Commodity Funds to or from the counterparty. There were no US Treasury Bills pledged by the Commodity Funds as at 31 May 2022, US Treasury Bills pledged by the Commodity Funds as at 30 November 2021 are detailed in note 16. There was cash collateral received by the Commodity Funds as at 31 May 2022 (30 November 2021: Nil). The Commodity Funds may pledge cash or securities to the counterparties. When cash or securities are received as collateral from the counterparties, the Depositary on behalf of the Commodity Funds takes physical receipt of the cash and securities. The cash and securities are held by the Depositary on behalf of the Commodity Funds and the credit risk exposure of the Commodity Funds is therefore considered minimal as all securities deposited with the Depositary will be clearly identified as being assets of the Funds. If the Commodity Funds are required to pledge cash or securities as collateral the Depositary will deliver the required collateral to the counterparties on behalf of the Commodity Funds.

All other Funds with the exception of the Commodity Funds may also pledge collateral in the form of equity securities. Securities pledged by the Funds are held by the Depositary and the credit risk exposure of the Funds is therefore considered minimal.

Please refer to the Schedule of investments of the individual Fund's for concentration of credit risk by market and industry.

Please refer to the Schedule of investments of the Invesco Bloomberg Commodity UCITS ETF on page 398 for information on Notional amounts of forward currency transactions.

In the event of the bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses. These losses could include declines in the value of its investment during the financial period/year in which the Company seeks to enforce its rights, an inability to realise any gains on the Company's investment during such financial period/year and fees and expenses incurred in enforcing its rights.

There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to recover any losses incurred. Derivative contracts such as swaps entered into by the Company on behalf of a Fund on the advice of the Investment Manager involve credit risk that could result in a loss to the relevant Fund.

The Funds trade with approved counterparties having a minimum credit rating of A2/P2 or equivalent, or is deemed by the Company to have an implied rating of A2/P2. Alternatively, an unrated counterparty will be acceptable where each Fund is indemnified against losses suffered as a result of a failure by the counterparty, by an entity which has and maintains a rating of A2/P2.

All credit ratings remain same of the counterparties at 31 May 2022 are as follows: Société Générale A+/A-1 (30 November 2021: A/A-1), Goldman Sachs International A+/A-1 (30 November 2021: A+/A-1), Morgan Stanley & Co. International plc A+/A-1 (30 November 2021: A+/A-1), J.P. Morgan Securities plc A+/A-1 (30 November 2021: A+/A-1), Citigroup Global Markets Limited A+/A-1 (30 November 2021: A+/A-1), UBS AG A+/A-1 (30 November 2021: A+/A-1), JPMorgan Chase Bank A+/A-1 (30 November 2021: A+/A-1), Deutsche Bank AG, London Branch A-/A-2 (30 November 2021: A-/A-2), Merrill Lynch International A+/A-1 (30 November 2021: A+/A-1), Morgan Stanley Capital Services LLC A+/A-1 (30 November 2021: A+/A-1) and Citibank, N.A. London Branch A+/A-1 (30 November 2021: A+/A-1).

The S&P rating of the issuer of all US Treasury Bills held by the Commodity Funds at 31 May 2022 was AA+/A-1+ (30 November 2021: AA+/A-1+).

The Investment Manager uses a mark to market approach to quantify, monitor and manage the credit risk exposure to derivative counterparties.

The Investment Manager imposes a credit exposure limit of 0.20% of Net Asset Value subject to a minimum value of EUR 100,000. In case the swap mark to market value exceeds this 0.20% limit the Investment Manager intends to trigger a swap reset, except for the Commodity Funds where a collateral call is made in case exposure exceeds the Minimum Transfer Amount agreed between the Funds and each swap counterparty. Additionally, the Investment Manager intends to impose a swap reset in case credit exposure to a swap counterparty exceeds EUR 400,000. Exposure can be higher than 0.20%. These resets or collateral calls can occur on a daily basis.

The swaps are also reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

Finally the Investment Manager follows detailed procedures for the construction of equity baskets and Treasury Bills portfolios designed to reduce potential credit exposure and enhance Fund liquidity.

As at 31 May 2022, the unrealised gains/(losses) on the open swap positions are disclosed in the Schedule of investments of each Fund.

The Company's Depositary is Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary").

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### C) Credit risk (continued)

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Company, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at financial period-end date 31 May 2022, NTC had a long term credit rating from Standard & Poor's of A+ (30 November 2021: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Company's ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU) by assessing whether the Company holds the ownership based on information or documents provided by the Company or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Company, clearly identifiable as belonging to the Company, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Company on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Company will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Company's rights with respect to its assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Northern Trust Corporation has provided a guarantee to Invesco Markets plc in relation to the payment of any obligations owing by Northern Trust Fiduciary Services (Ireland) Limited to Invesco Markets plc under the Depositary Agreement upon written demand after 30 days of any non-payment.

Northern Trust Corporation has the right under the guarantee to assert any such defences available to the Northern Trust Fiduciary Services (Ireland) Limited in relation to any such payments.

The Company is also exposed to credit risk through collateral held on the Commodity Funds with The Northern Trust Company which has a credit rating at the financial period end of AA-/A-1+ (30 November 2021: AA-/A-1+).

The total return swaps and outperformance swaps are unfunded.

#### D) Liquidity risk

As at 31 May 2022 and 30 November 2021, the liquidity risk arises at Fund level.

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to negotiate or liquidate a position at an advantageous price, or at all. The Investment Manager is satisfied that the approved counterparties will close out their swaps at any time at fair value.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed. The liquidity of these equities can be utilised in responding to changes in the notional value of the swaps of the Funds.

The Investment Manager monitors the 10 days average daily trading volume of the underlying equity stocks for the OTC derivatives (swaps) to ensure that sufficient liquidity remains in the market for these securities.

Redeemable Shares are redeemed on demand at the Shareholder's option.

Even though the Shares may be listed on one or more relevant stock exchanges, there can be no certainty that there will be liquidity in the Shares on any relevant stock exchange or that the market price at which the Shares may be traded on a relevant stock exchange will be the same as or approximately equal to the Net Asset Value per Share.

As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a relevant stock exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a relevant stock exchange may be halted or suspended due to market conditions or for the reason that, in the relevant stock exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the relevant stock exchange's rules. If trading on a relevant stock exchange is halted, investors may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Company to redeem Shares in accordance with the provisions set out in the Prospectus.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### D) Liquidity risk (continued)

The Company has the discretion in circumstances set out in the Prospectus to temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares.

The following tables analyse the Fund's financial liabilities into relevant maturity groupings based on the length of time remaining between the Statement of Financial Position date and the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant. All amounts are stated in sub-fund currency.

\* The Fund launched on 22 March 2021.

All of the Fund's derivative financial instruments in a loss position are all due within 7 days to 1 month.

Please refer to the Schedule of investments of the Invesco Bloomberg Commodity UCITS ETF on page 398 for information on Notional amounts of forward currency transactions.

The swaps are reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

#### E) Specific instruments

##### Forward foreign exchange contracts

The Funds may enter into forward foreign exchange contracts.

The fair value of the forward foreign exchange contracts is determined using quoted forward exchange rates at the reporting date and present value calculations. Details of the unrealised gains/(losses) on each open forward foreign exchange contracts can be found in the Schedules of investments of each Fund.

##### Swap agreements

The Funds of the Company enter into swap agreements. Swap agreements are privately negotiated agreements between the Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals.

The Funds except for the Commodity Funds enter into outperformance swaps where the Fund exchanges the performance of the equity securities it owns for the target performance as described in the relevant supplement. The outperformance swaps are a cost efficient method of achieving the target performance.

The Commodity Funds enter into total return swaps which exchange an interest payment for the target performance.

The Investment Manager monitors the liquidity of the underlying equities and counterparty credit quality.

Details of the unrealised gains/(losses) on each open swap position can be found in the Funds' Schedules of investments.

## Notes to the Financial Statements (continued)

### 2. Financial risks (continued)

#### F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares can change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

Please refer to note 6 for dividends strategy.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

#### G) Fair value information

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statements of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Investments whose values are based on quoted market prices in active markets and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Level 2 amounts above represent outperformance/total swaps. These are priced using a valuation comprising of observable data which tracks the performance of the Reference Index against the performance of the Fund's underlying equity basket.

The Schedule of investments shows the equities split by level, country of origin and industry group. The derivatives are outperformance/total swaps and forwards. All equities and treasury bills are classified as Level 1 and all outperformance/total swaps and forwards as Level 2.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

The Funds do not have any investments, and have not entered into any transactions, requiring this type of valuation during the financial period/year. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The following tables analyse within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value. Amounts are stated in US Dollars, Euro, Sterling and Japanese Yen.

As at 31 May 2022

		Fair Value Level 1	Fair Value Level 2	Fair Value Level 3	Total

## Notes to the Financial Statements (continued)

---

### 2. Financial risks (continued)

#### G) Fair value information (continued)

##### Level 3 reconciliation

There were no level 3 assets held during the financial period ended 31 May 2022 and year ended 30 November 2021.

The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial period/year end date. The fair value of the outperformance swaps and total return swaps held by the Funds is arrived at using a valuation technique comprising of observable data. Forward foreign exchange contracts are valued at market settlement price.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Outperformance and total return swaps are marked to market daily in line with the valuation technique which uses values from third party vendors and the change in value, if any, is recorded as an unrealised gain or loss on the Statements of Financial Position. The values used in the swap mark to market calculation are the prices of the basket of equities (outperformance swaps) or Treasury Bills (total return swaps) held by the Fund and the price of the underlying Reference Index/ strategy of the Fund, which represent the opposing sides of the swap.

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of other receivables and payables are assumed to approximate their fair value.

##### Financial assets and liabilities not measured at fair value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. They are categorised as Level 2 in the fair value hierarchy.

## Notes to the Financial Statements (continued)

### 5. Management fees

The Management fees, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Fund to the Manager. The Management fee accrues on each day and is calculated on each Dealing Day and paid monthly (or more often) in arrears. The Manager pays out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Managers, the Sub-Investment Manager, the Administrator, the Depositary, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Fund that include setting up costs and other administrative expenses as described in the Prospectus. Operating expenses are disclosed in the Statement of Comprehensive Income and in Note 4.

The fees in the following table are expressed as a percentage per annum of the Fund's net asset value.

### 10. Segment reporting

IFRS 8 requires disclosures in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income. Management have determined the CODM is the Board of Directors.

All revenues are derived from financial assets and are attributable to a country based on the domicile of the issuer of the instrument. The tables below show a breakdown of the interest income. The Schedule of investments discloses the investments of the Fund at their fair value by their respective country of origin.

\* Effective 2 March 2022, the Fund was placed in suspension.

## Notes to the Financial Statements (continued)

---

### 11. Use of financial derivative instruments and efficient portfolio management

Subject to the UCITS Regulations and to the conditions within the limits laid down by the Central Bank of Ireland, the Company, on behalf of a Fund, may invest in Financial Derivative Instruments ("FDIs") dealt on a regulated market and/or OTCs which can be used for investment purposes, hedging and/or efficient portfolio management purposes. During the financial period ended 31 May 2022 the Company did not use FDIs for the purpose of efficient portfolio management.

The FDIs in which a Fund may invest are repurchase agreements, spot and forward currency contracts, options on securities, indices and currencies, swaps, credit default swaps, futures and options on futures and when issued, forward commitment securities, further details of which will be set out in the relevant Supplement.

As at 31 May 2022 and 30 November 2021, the only FDIs held by the Funds except for the Commodity Funds were outperformance swaps; where the performance of the equity baskets are netted against the performance of the Reference Index or Reference Asset, if the Reference Index/strategy outperforms the equity basket, the swap Counterparty pays the difference to the Fund; and vice versa.

As at 31 May 2022 and 30 November 2021, the only FDIs held by the Commodity Funds were total return swaps and forward currency contracts, which exchange an interest payment for the target performance.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

For further information on the exposure obtained through the use of FDIs and the identity of the counterparties please refer to the Fund's Schedule of investments. For details on the collateral pledged please refer to the Funds' Statement of Financial Position.

---

### 12. Related and connected parties transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

#### Related Parties

##### Directors

The amount paid to Directors in the financial period to 31 May 2022 and the financial year to 30 November 2021 by the Manager and the amounts outstanding on 31 May 2022 and 30 November 2021 are disclosed in note 4 (Operating Expenses) and note 9 (Payables) respectively. The Directors who are also employees of the Invesco Group are not entitled to receive Directors' fees.

Barry McGrath is a Director of the Company, the Manager, and Invesco Holdings Limited. Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of the Invesco UK Services Limited. No fees were paid to KB Associates during the financial period by the Company (31 May 2021: Nil). KB Associates performed the designated person role for Invesco Markets plc. Feargal Dempsey is also a Director of the Company and the Manager. Sarah (Katy Walton) Jones is a Director of the Company.

##### Manager

The Company has appointed Invesco Investment Management Limited to act as Manager to the Company and each Fund. The Manager forms part of the Invesco group of companies, the parent of which is Invesco Limited, a US publicly traded company listed on the New York Stock Exchange with ticker IVZ. The management fee charged for the financial period was EUR 18,958,776 (31 May 2021: EUR 14,129,218), of which EUR 1,386,843 was outstanding at 31 May 2022 (31 May 2021: EUR 886,559).

The Manager was charged EUR 4,920 (inclusive of VAT) secretarial fees by MFD Secretaries Limited on behalf of Invesco Markets plc in the financial period to 31 May 2022 to the Manager (31 May 2021: Nil); and the amount outstanding at the end of the financial period was nil (30 November 2021: Nil). The Manager was charged EUR 173,994 (inclusive of VAT) legal fees by Maples and Calder on behalf of Invesco Markets plc in the financial period to 31 May 2022 (31 May 2021: EUR 6,847); and the amount outstanding at the financial period end was Nil (30 November 2021: Nil).

##### Connected Parties

##### Investment Managers

Invesco Capital Management LLC is a related party and the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is a connected party and the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is also the Investment Manager to all other Funds of the Company. The Funds paid no fees directly to the Investment Managers/Sub-Investment Manager and fees paid by Manager on behalf of the Funds. As outlined in note 4 of these Financial Statements, all other expenses are paid by the Manager on behalf of the Funds.

## Notes to the Financial Statements (continued)

### 12. Related and connected parties transactions (continued)

#### Significant agreements

##### Authorised Participants

The Authorised Participants are related parties by virtue of their direct shareholding in the Fund or through a shareholding of one of their respective group companies. The complete list of Authorised Participants is shown in the Organisation section on pages 8 to 9.

There were no brokerage fees paid to the Authorised Participants during the financial period ended 31 May 2022 (31 May 2021: Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Fund but are not significant at financial period/year end. There is no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

### 13. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.
- b) any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Funds which purchase derivatives after 1 January 2017, on the net total return versions\* of indices deemed to be non-qualifying under Section 871(m) of the U.S. Internal Revenue Code, receive a cash dividend amount from each derivative counterparty. The derivative counterparty will withhold and pay such amount to the IRS in satisfaction of the Funds' tax liability under this code. The cash dividend amount is based on the number of Reference Index units the Fund holds and the weight of the Reference Index component on each ex-date multiplied by the applicable withholding tax rate. Derivative positions detailed in the relevant Funds' Schedule of investments may comprise of two positions with both Goldman Sachs and Morgan Stanley: one traded prior to the 1 January 2017 which is grandfathered and not liable for withholding tax and a position traded after 1 January 2017 which is liable. On 9 December 2021 (one day before maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). Due to that extensions the previously grandfathered swaps lost their 871m grandfather status. One week later swaps that were previously split between different MS accounts in ETFM were merged.

There are currently 12 Funds in scope, namely: Invesco Consumer Discretionary S&P US Select Sector UCITS ETF, Invesco Consumer Staples S&P US Select Sector UCITS ETF, Invesco Energy S&P US Select Sector UCITS ETF, Invesco Financials S&P US Select Sector UCITS ETF, Invesco Goldman Sachs Equity Factor Index World UCITS ETF, Invesco Health Care S&P US Select Sector UCITS ETF, Invesco Industrials S&P US Select Sector UCITS ETF, Invesco KBW NASDAQ FinTech UCITS ETF, Invesco Materials S&P US Select Sector UCITS ETF, Invesco Real Estate S&P US Select Sector UCITS ETF, Invesco Technology S&P US Select Sector UCITS ETF and Invesco Utilities S&P US Select Sector UCITS ETF.

The tax element applicable to each of the Funds listed above is rolled up into the realised and unrealised gains/(losses) on outperformance swaps.

During the financial period ended 31 May 2022 and 31 May 2021 the derivative counterparties withheld and paid respective amounts to IRS in satisfaction of the Funds' tax liability under this code. The amounts paid, which is rolled up into the realised and unrealised gains/(losses) on outperformance swaps and does not affect Funds Nav, amount paid in respect of all funds is immaterial.

\* The Invesco Morningstar US Energy Infrastructure MLP UCITS ETF, trades the Gross Return Reference Index. US master limited partnerships ("MLPs") are structured so that distributions are generally treated as capital rather than income. However some MLPs own securities that distribute income to the MLP, which means the MLP's own distribution would include income and could be subject to withholding tax. Invesco has agreed with its derivative counterparties that any tax which may arise will not be charged to the fund and thus will not affect the funds' performance.

## Notes to the Financial Statements (continued)

### 14. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

Details of the number of shares issued and redeemed during the financial period per Fund are contained below:

For the financial period ended 31 May 2022:

## Notes to the Financial Statements (continued)

### 16. Collateral

The collateral for the Commodity funds is bilateral. The Funds have entered into an International Swaps and Derivative Agreement ("ISDA") with each Counterparty being Citigroup Global Markets, Deutsche Bank London, Morgan Stanley & Co LLC, Goldman Sachs International, J.P. Morgan Securities plc, these ISDA were in place throughout the financial period ending 31 May 2022. Based on the value of the daily mark to market values of the total return swap, Assenagon Asset Management S.A. ("the Sub-Investment Manager") on behalf of the Commodity funds agrees a daily collateral call with the counterparties. If the Funds are required to pledge collateral they will deliver securities which comprise US Treasury Bills as collateral. If the Funds are to receive collateral from the counterparty they will receive USD cash or UK Gilts, US Treasury Bills or Bonds or German Bonds. If the Funds receive collateral, the collateral will not impact the Fund's net assets. If the Funds are required to pledge collateral, then the Funds will deliver securities being the US Treasury Bills to the counterparty. Based on the value the Investment Manager agrees a daily collateral call with the counterparties. Collateral calls are made in line with the timings, minimum transfer amounts and other parameters defined in the Credit Support Annex to the ISDA with the respective counterparty.

There were no US Treasury Bills pledged by the Commodity Funds as at 31 May 2022. US Treasury Bills pledged by the Commodity Funds as at 30 November 2021 are detailed in the table below.

#### Invesco Commodity Composite UCITS ETF as at 30 November 2021

## Notes to the Financial Statements (continued)

### 16. Collateral (continued)

There was cash collateral received by the Commodity Funds as at 31 May 2022 (30 November 2021: Nil).

<b>As at 31 May 2022</b>	<b>Total EUR</b>	<b>Invesco Commodity Composite UCITS ETF USD</b>	<b>Invesco Bloomberg Commodity UCITS ETF USD</b>	<b>Invesco Bloomberg Commodity Ex- Agriculture UCITS ETF USD</b>
Cash Collateral received from Counterparty	44,786,016	2,739,067	30,189,000	15,049,000
	<b>44,786,016</b>	<b>2,739,067</b>	<b>30,189,000</b>	<b>15,049,000</b>

The collateral for all other funds is unilateral. The Funds have entered into a Charge Account Control Agreement ("the Agreement") with each Swap Counterparty being J.P. Morgan Securities plc and Goldman Sachs International. The Agreement is in place from 25 August 2017 and from 11 August 2017 respectively. The collateral model involves the pledge of collateral to the Swap Counterparties in the form of equities. Equities pledged as collateral are marked with an asterisk in the Schedule of investments.

### 17. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current or prior financial period.

### 18. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended) the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund. While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

### 19. Operating Segment

IFRS 8 requires disclosure in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income, which may consist of interest and dividends. Management have determined that the CODM is the Board of Directors.

The Funds except for the Commodity Funds trade a portfolio of equities and outperformance swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset.

The Commodity Funds trade a portfolio of US Treasury Bills and total return swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index.

The segment information provided to the Investment Manager and Sub Investment Manager is the same as that disclosed as at 31 May 2022, in the Statements of comprehensive income, in the Statement of Financial Position, in Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Preference Shares, in the Statement of Cash Flows and Schedule of investments for each Fund.

The internal reporting provided to the Board of Directors for the Company assets and liabilities and performance is prepared on a consistent basis with the measurement and recognition of IFRS. Apart from the Invesco RDX UCITS ETF Fund, which earned EUR 170,776 (USD 188,700) (30 May 2021: EUR 175,091 (USD 211,350)); none of the Funds earned swap income during the financial period.

Each Fund is operating as a single operating segment.

## Notes to the Financial Statements (continued)

### 19. Operating Segment (continued)

There were no changes in the reportable segments during the financial year. The Funds have no assets classified as non-current assets. In respect of the Invesco RDX UCITS ETF Fund, please see page 636 for detailed analysis of swap income received from Authorised Participants.

In respect of the Funds which operate hedged share classes, these hedged share classes do not represent separate operating segments from their respective Funds.

### 20. Comparative figures

The funds below have no comparative's as they launched after 30 November 2021.

	<b>Launch Date</b>
Invesco S&P China A 300 Swap UCITS ETF	5 May 2022
Invesco S&P China A MidCap 500 Swap UCITS ETF	5 May 2022

### 21. Significant events during the financial period

On 6 December 2021, the Registered Office of the Company changed from 32 Molesworth Street, Dublin 2, D02 Y512, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 6 December 2021, the address of the Manager and Promoter changed from Invesco Investment Management Limited, Central Quay Riverside IV, Sir John Rogerson's Quay, Dublin 2, D02 HD32, Ireland to Invesco Investment Management Limited, Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland.

On 9 December 2021 (one day prior to maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). As a result of these extensions, all previously grandfathered swaps lost their 871m grandfather status (please refer to Note 15 Taxation for further details). There is no expected impact to the NAV of the respective funds or to the Company as a result of the maturity of the grandfathered swaps which were positions entered into prior to the implementation of the section 871m regulations, as they subsequently merged into the non-grandfathered swaps which existed on the same funds. Both swap counterparties continue to support these funds on the same economic terms.

#### Affected Funds/Swaps

Invesco Consumer Discretionary S&P US Sector ETF  
Invesco Consumer Staples S&P US Select Sector ETF  
Invesco Energy S&P US Select Sector ETF  
Invesco Financials S&P US Select Sector UCITS ETF

Invesco STOXX Europe 600 Optimised Travel & Leisure UCITS ETF  
Invesco STOXX Europe 600 Optimised Utilities UCITS ETF

## Notes to the Financial Statements (continued)

---

### 21. Significant events during the financial period (continued)

#### Russian-Ukraine Conflict

Due to the current market disruption created by the Russian-Ukraine conflict and deteriorating tradability of Russian Shares and GDRs, dissemination of the Reference Index for the Invesco RDX UCITS ETF was suspended. As a result, the Directors of Invesco Markets plc took the decision to suspend the valuation of the Fund and the issue, redemption and switching of the shares of the Fund, with effect from and including 2 March 2022. The Board agreed that all management fees be waived from the date of suspension.

No other funds had any net economic Russian exposure, with the exception of Invesco MSCI Emerging Markets UCITS ETF and Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF (both of which had immaterial Russian exposures on their index returns). By the synthetic strategy of the funds, and the mechanism of the outperformance swap in place, the return in Russian equities is swapped out for the return on the index, further mitigating the fund's exposure and maintaining effective tracking error. The above Russian exposures are not material to the Company as a whole.

On 5 May 2022, Invesco S&P China A 300 Swap UCITS ETF and Invesco S&P China A MidCap 500 Swap UCITS ETF launched.

There were no other significant events during the financial period.

---

### 22. Significant events since the financial period end

On 6 June 2022, the Secretary changed from MFD Secretaries Limited to Invesco Asset Management Holdings Limited.

On 12 May 2022, the Invesco RDX UCITS ETF ('the Fund') Index provider confirmed that the Fund Index would be discontinued effective 17 May 2022 ('the Index Termination Announcement'). Following the Index Termination Announcement, the Fund's swap counterparties confirmed that, as a result of the Fund Index Termination, the underlying swap contracts held by the Fund would be closed out as they would no longer have a valid reference.

It was therefore the view of the Directors, following consultation with the investment manager of the Fund, Assenagon Asset Management S.A., that it was impracticable for the Fund to continue to operate and that it was in the best interests of the Company, the Fund and the Shareholders that the Fund be terminated in accordance with the relevant provisions set out in the Fund's Articles of Association. As a result, shares in the Fund were redeemed accordingly with effect from 21 June 2022.

Effective 30 June 2022, Barry McGrath resigned from the Board.

There were no other significant events since the financial period end.

---

### 23. Approval of Financial Statements

The Financial Statements were approved by the Board on 12 July 2022.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio  
For the financial period ended 31 May 2022**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

\* The Fund launched on 5 May 2022.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

## Supplemental Information

### Securities Financing Transactions Regulations

The following information is presented with regard to Securities Financing Transactions Regulation (EU) 2015/2365 ("SFTR") on transparency of securities financing and of reuse. The Board of Directors considers the outperformance swaps held by the funds to meet the definition of total return swaps ("TRSs") within those regulations. The Authorised Participants listed on pages 8 and 9 of the financial statements may also be counterparties to the Swaps.

#### Global Data

Securities and commodities on loan as a proportion of total lendable assets. There were no lendable assets during the financial period.

## **Supplemental Information**

### **Securities Financing Transactions Regulations (continued)**

#### **Re-use of Collateral**

Collateral is not re-used.

#### **Safekeeping - Collateral Received**

All collateral received/payable is held on behalf of the funds by Northern Trust Company. Cash of EUR 44,786,016 was payable as collateral to Deutsche Bank AG, London Branch, Goldman Sachs & Co, JP Morgan Securities LLC, Citigroup Global Markets INC and Morgan Stanley & Co LLC at 31 May 2022 (30 November 2021: Nil). Full details of cash collateral received by Commodity Funds is noted in note 16.

#### **Return & Cost**

Returns and costs for total return swaps are received/borne 100% by each fund and netted with realised gain/(losses) on outperformance swaps. The monetary amounts are disclosed in Note 3 Net gains/(losses) on financial assets and liabilities at fair value through profit or loss to each fund as Realised gains/(losses) and Net change in unrealised appreciation/(depreciation) on outperformance swaps and total return swaps.

## **Supplemental Information Sustainable Finance Disclosure Regulation**

### **Sustainable Finance Disclosure Regulation**

Invesco S&P 500 ESG UCITS ETF (the "Fund") is an Article 8 fund within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability disclosures in the financial services sector ("SFDR").

The environmental and social characteristics promoted by the Fund are to provide exposure to the risk and return profile of the S&P 500 Index (the "Parent Index") whilst improving ESG (environmental, social and governance) characteristics. The Fund achieves this by tracking the S&P 500 ESG Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index is market-cap-weighted and designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the Parent Index. Exclusionary criteria is applied to the Parent Index to exclude securities that:

- 1) are involved (as defined by the Index Provider) in business activities in tobacco, thermal coal, oil sands, small arms, military contracting and controversial weapons;
- 2) are classified as Non-Compliant according to the United Nations Global Compact principles; or
- 3) have an S&P Dow Jones Index ESG Score that falls within the worst 25% of ESG scores from each Global Industry Classification Standard industry group.

The Fund's environmental and social characteristics have been met by replicating the Reference Index and by applying the business involvement exclusion criteria of the methodology of the Reference Index. In addition, securities that are excluded from the Parent Index after application of the methodology of the Reference Index are also excluded from the Fund basket.

The most recent version of the Funds supplement can be found via the link below.

[https://etf.invesco.com/sites/default/files/documents/Invesco\\_S%26P\\_500\\_ESG\\_UCITS ETF\\_SUP\\_EN.pdf](https://etf.invesco.com/sites/default/files/documents/Invesco_S%26P_500_ESG_UCITS ETF_SUP_EN.pdf)

The Fund generally expects to invest a proportion of its assets in sustainable investments. The investments underlying the Fund, however, do not currently take into account the EU criteria for environmentally sustainable economic activities as defined in Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation") and so the "do no significant harm" principle under the Taxonomy Regulation does not currently apply to the investments underlying the Fund. The Fund does not currently intend to be aligned with the Taxonomy Regulation and, at the date of this Supplement, 0% of the Fund's investments will be aligned with the environmental objectives under the Taxonomy Regulation. The Manager will keep the Fund's position vis-à-vis the Taxonomy Regulation under consideration and, to the extent required, the Supplement will be amended accordingly.
