## 2024 Best Fixed Income Group

### Invesco Municipal Funds Win 13 LSEG Lipper Awards

For more than three decades, LSEG Lipper Fund Awards have honored funds and fund management firms that have excelled in providing consistently strong risk-adjusted performance relative to their peers. We are pleased to announce that Invesco has won the 2024 LSEG Lipper Best Fixed Income Group and the Invesco municipal bond funds have won thirteen 2024 best-in-class awards, based on consistent returns for the three-, five-, or 10-year periods ending November 30, 2023, as indicated, within their respective peer categories.

We are proud that in a universe with hundreds of municipal bond funds eight Invesco municipal bond funds received LSEG Lipper Awards this year. We believe that this accomplishment is an indication of the overall investment capabilities of the Invesco Municipal Bond team. Importantly, we employ the same value-oriented, research-intensive and security-specific investment strategies that have historically delivered highly competitive yields to our shareholders. Today, we are a strong, proven industry leader dedicated to investment excellence and to providing solutions that help investors pursue their long-term financial goals.

**Generally, Y-shares and R6-shares are only available to certain investors. Equivalent A-shares of the fund may have been ranked lower or higher.**

## Invesco Municipal Bond team

The Invesco Fixed Income Municipal Bond team's investment philosophy is based on the belief that creating long-term value through comprehensive, forward-looking research is the key to providing clients with diversified portfolios that aim to maximize risk-adjusted returns. Forward-looking statements are not guarantees of future results. They involve risks, uncertainties and assumptions, there can be no assurance that actual results will not differ materially from expectations. Proprietary credit research and risk management are the foundations of our investment process, supported by a deep and experienced team of investment professionals with expertise that spans the entire municipal investment universe. We maintain an integrated, team-based investment process that combines the strength of our fundamental credit research analysts with the market knowledge and investment experience of our portfolio managers. Our position among the top 5 municipal investment managers by assets in the US\* enables us to access preferred market opportunities and gain valuable market insight. Our team has established relationships with more than 120 national and regional municipal debt dealers in the US. We believe these established relationships, as well as our size, allow us to achieve fluid execution in daily transactions. Our ability to aggregate trades across multiple portfolios also enables us to obtain lower institutional pricing, which can contribute to portfolio performance.

All The LSEG Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers. The LSEG Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is an objective, quantitative, risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the LSEG Lipper Fund Award. For more information, see [lipperfundawards.com](http://lipperfundawards.com). Although LSEG Lipper makes reasonable efforts to ensure the accuracy and reliability of the data used to calculate the awards, their accuracy is not guaranteed. LSEG Lipper Inc. is a major independent mutual fund tracking organization.

## About risk

An issuer may be unable to meet interest and/or principal payments, thereby causing its instruments to decrease in value and lowering the issuer's credit rating.

There is a risk that the Federal Reserve Board (FRB) and central banks may raise the federal funds and equivalent foreign rates. This risk is heightened due to the potential "tapering" of the FRB's quantitative easing program and other similar foreign central bank actions, which may expose fixed income investments to heightened volatility and reduced liquidity, particularly those with longer maturities.

Interest rate risk refers to the risk that bond prices generally fall as interest rates rise and vice versa.

Junk bonds have greater risk of default or price changes due to changes in the issuer's credit quality. Junk bond values fluctuate more than high-quality bonds and can decline significantly over a short time.

Securities which are in the medium- and lower-grade categories generally offer higher yields than are offered by higher-grade securities of similar maturity, but they also generally involve more volatility and greater risks, such as greater credit risk, market risk, liquidity risk, management risk, and regulatory risk.

The funds may invest in municipal securities issued by entities having similar characteristics, which may make the fund more susceptible to fluctuation.

Municipal securities have the risk that legislative or economic conditions could affect an issuer's ability to make principal and/or interest payments.

All or a portion of the fund's otherwise tax-exempt income may be subject to the federal alternative minimum tax.

The fund may use leverage to seek to enhance income, which creates the likelihood of greater volatility of the fund's shares and may also impair the ability to maintain its qualification for federal income tax purposes as a regulated investment company.

Derivatives may be more volatile and less liquid than traditional investments and are subject to market, interest rate, credit, leverage, counterparty and management risks. An investment in a derivative could lose more than the cash amount invested.

Certain of the municipalities in which the Fund invests, including Puerto Rico, currently experience significant financial difficulties. Puerto Rico's economic problems increase the risk of investing in Puerto Rican municipal obligations, including the risk of potential issuer default, heightens the risk that the prices of Puerto Rican municipal obligations, and the Fund's net asset value, will experience greater volatility. See the prospectus for more information.

Inverse floating rate obligations may be subject to greater price volatility than a fixed income security with similar qualities. When short-term interest rates rise, they may decrease in value and produce less or no income and are subject to risks similar to derivatives.

The funds are subject to certain other risks. Please see the prospectus for more information regarding the risks associated with an investment in the fund.

Diversification does not guarantee a profit or eliminate the risk of loss.

**Before investing, investors should carefully read the prospectus and/or summary prospectus and carefully consider the investment objectives, risks, charges and expenses. For this and more complete information about the fund(s), investors should ask their financial professional for a prospectus/summary prospectus or visit [invesco.com/fundprospectus](http://invesco.com/fundprospectus).**
